Submission Requirements Residential Construction

When a property owner is proposing either a new structure or an addition, this office requires:

• A plot or site plan, showing the shape and dimensions of the entire lot, all existing and proposed structures on the lot and the distance that the structures are from all lot lines. For a new dwelling the plan must be prepared by a registered design professional. For dwelling additions, the plan can be prepared by the owner or agent. (See Figure 1)

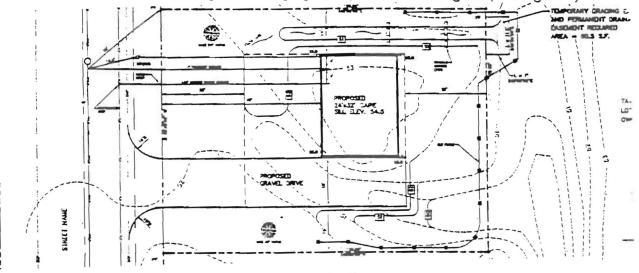

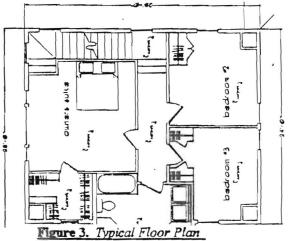

Figure 1. Typical Plot Plan

As can be seen, it is easy to establish the extent of compliance with the required setbacks and lot coverage.

• For new construction, structural alterations, or additions, plans showing structural details must be provided. Minimally they should include foundation plans, including drainage and support column spacing framing details, floor plans and a cross section. (See Figures 2, 3 &4)

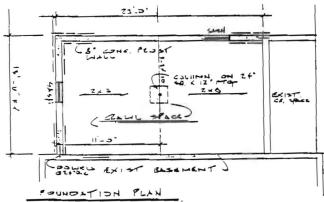

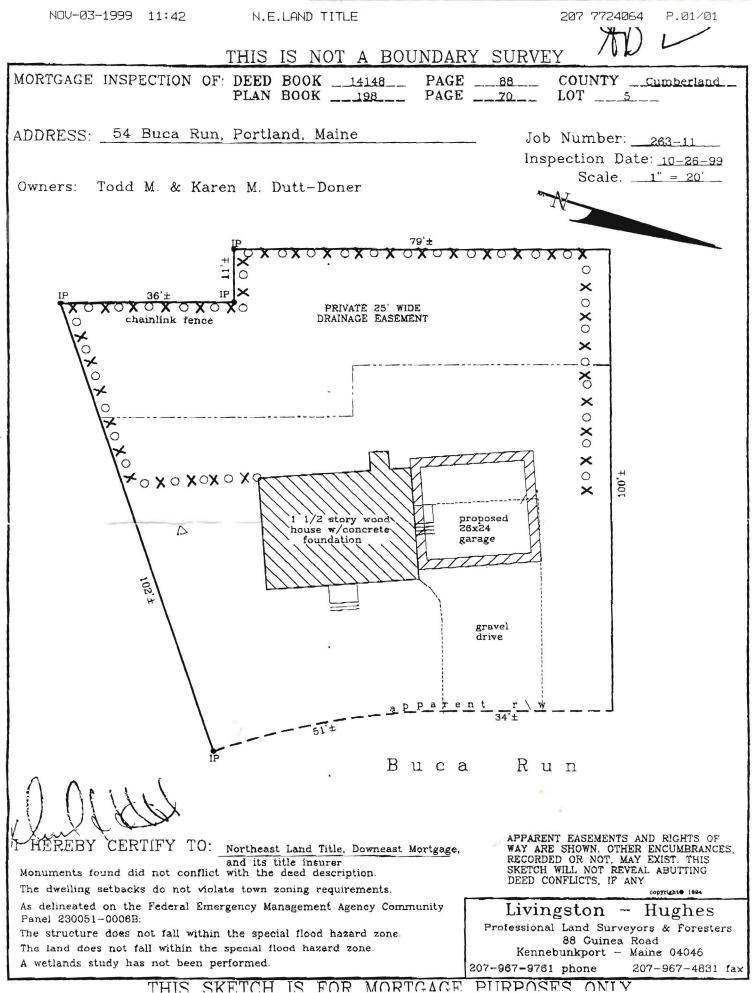

Figure 2. Typical Foundation Plan

LAND USE - ZONING REPORT ADDRESS: DATE Sprickbore 26×24 gAASE with REASON FOR PERMIT: Construct NUMER C-B-L: 3 BUILDING OWNER: PERMIT APPLICANT: OWNER APPROVED: With conditions denied: #6,#10,# CONDITION(S) OF APPROVAL This permit is being approved on the basis of plans submitted. Any deviations shall 1. require a separate approval before starting that work. 2 During its existence, all aspects of the Home Occupation criteria, Section 14-410, shall be maintained. The footprint of the existing ______ shall not be increased during maintenance 3. reconstruction. 4. All the conditions placed on the original, previously approved, permit issued on _____ are still in effect for this amendment. 5. Your present structure is legally nonconforming as to rear and side setbacks. If you were to demolish the building on your own volition, you will not be able to maintain these same setbacks. Instead you would need to meet the zoning setbacks set forth in today's ordinances. In order to preserve these legally non-conforming setbacks, you may only rebuild the in place and in phases. 6. This property shall remain a single family dwelling. Any change of use shall require a separate permit application for review and approval. Our records indicate that this property has a legal use of _____ units. Any change 7. in this approved use shall require a separate permit application for review and approval. Separate permits shall be required for any signage. 8. Separate permits shall be required for future decks, sheds, pool(s), and/or garage. This is <u>not</u> an approval for an additional dwelling unit. You <u>shall not</u> add any additional 10. kitchen equipment, such as stoves, microwaves, refrigerators, or kitchen sinks, etc. without special approvals. Other requirements of condition It is my Verbal understanding tro 11. ones That There well bre A 14' side yard se minimply required. Marge Schmuckal, Zoning Administrator

Appr	oved with the following conditions: $\frac{\times 1}{3}$, $\frac{\times 2}{3}$, $\frac{\times 4}{3}$, $\frac{\times 8}{7}$, $\frac{\times 12 \times 13}{7}$, $\frac{\times 15}{7}$, $\frac{\times 19 \times 26}{7}$, $\frac{\times 29 \times 30}{32}$, $\frac{\times 29}{32}$, $\frac{\times 12}{32}$, $\frac{\times 12}{7}$, $\times 1$
×1.	This permit does not excuse the applicant from meeting applicable State and Federal rules and laws. $\#31$
¥1. ¥ 2.	Before concrete for foundation is placed, approval ⁹ from the Development Review Coordinator and Inspection Services must be obtained. (A 24 hour notice is required prior to inspection)
3.	Foundation drain shall be placed around the perimeter of a foundation that consists of gravel or crushed stone containing not more than
	10 percent material that passes through a No. 4 sieve. The drain shall extend a minimum of 12 inches beyond the outside edge of the footing. The thickness shall be such that the bottom of the drain is not higher than the bottom of the base under the floor, and that the
	top of the drain is not less than 6 inches above the top of the footing. The top of the drain shall be covered with an approved filter
	membrane material. Where a drain tile or perforated pipe is used, the invert of the pipe or tile shall not be higher than the floor elevation. The top of joints or top of perforations shall be protected with an approved filter membrane material. The pipe or tile shall be
	placed on not less than 2" of gravel or crushed stone, and shall be covered with not less than 6" of the same material. Section 1813.5.2
X 4.	Foundations anchors shall be a minimum of $\frac{1}{2}$ " in diameter, 7" into the foundation wall, minimum of 12" from corners of foundation and
5.	a maximum 6' o.c. between bolts. (Section 2305.17) Waterproofing and damp proofing shall be done in accordance with Section 1813.0 of the building code.
6.	Precaution must be taken to protect concrete from freezing. Section 1908.0
7.	It is strongly recommended that a registered land surveyor check all foundation forms before concrete is placed. This is done to verify that the proper setbacks are maintained.
X 8.	Private garages located beneath habitable rooms in occupancies in Use Group R-1, R-2, R-3 or I-1 shall be separated from adjacent
~	interior spaces by fire partitions and floor/ceiling assembly which are constructed with not less than 1-hour fire resisting rating. Private
0	garages attached side-by-side to rooms in the above occupancies shall be completely separated from the interior spaces and the attic area by means of 1/2 inch gypsum board or the equivalent applied to the garage means of 1/2 inch gypsum board or the equivalent applied to the
	garage side. (Chapter 4, Section 407.0 of the BOCA/1996)
9.	All chimneys and vents shall be installed and maintained as per Chapter 12 of the City's Mechanical Code. (The BOCA National
10.	Mechanical Code/1993). Chapter 12 & NFPA 211 Sound transmission control in residential building shall be done in accordance with Chapter 12, Section 1214.0 of the City's Building Code.
×11.	Guardrails & Handrails: A guardrail system is a system of building components located near the open sides of elevated walking surfaces
	for the purpose of minimizing the possibility of an accidental fall from the walking surface to the lower level. Minimum height all Use
	Groups 42", except Use Group R which is 36". In occupancies in Use Group A, B, H-4, I-1, I-2, M and R and public garages and open parking structures, open guards shall have balusters or be of solid material such that a sphere with a diameter of 4" cannot pass through
	any opening. Guards shall not have an ornamental pattern that would provide a ladder effect. (Handrails shall be a minimum of 3e4" but
	not more than 38". Use Group R-3 shall not be less than 30", but not more than 38".) Handrail grip size shall have a circular cross section
	with an outside diameter of at least 1 1/4" and not greater than 2". (Sections 1021 & 1022.0) - Handrails shall be on both sides of stairway. (Section 1014.7)
×12.	Headroom in habitable space is a minimum of 7'6". (Section 1204.0)
412. 413. 14. 415.	Stair construction in Use Group R-3 & R-4is a minimum of 10" tread and 7 3/" maximum rise. All other Use Group minimum 11"
14.	tread, 7" maximum rise. (Section 1014.0) The minimum headroom in all parts of a stairway shall not be less than 80 inches. (6'8") 1014.4
×15.	Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door
`	approved for emergency egress or rescue. The units must be operable from the inside without the use of special knowledge or separate tools. Where windows are provided as means of egress or rescue they shall have a sill height not more than 44 inches (1118mm) above
	the floor. All egress or rescue windows from sleeping rooms shall have a minimum net clear opening height dimension of 24 inches
	(610mm). The minimum net clear opening width dimension shall be 20 inches (508mm), and a minimum net clear opening of 5.7 sq. ft.
16.	(Section 1018.6) Each apartment shall have access to two (2) separate, remote and approved means of egress. A single exit is acceptable when it exits
10.	directly from the apartment to the building exterior with no communications to other apartment units. (Section 1010.1)

--

All vertical openings shall be enclosed with construction having a fire rating of at least one (1) hour, including fire doors with self closer's. (Over 3 stories in height requirements for fire rating is two (2) hours.) (Section 710.0)

LOT 5 BUCA RUN 10,000 × 54 -

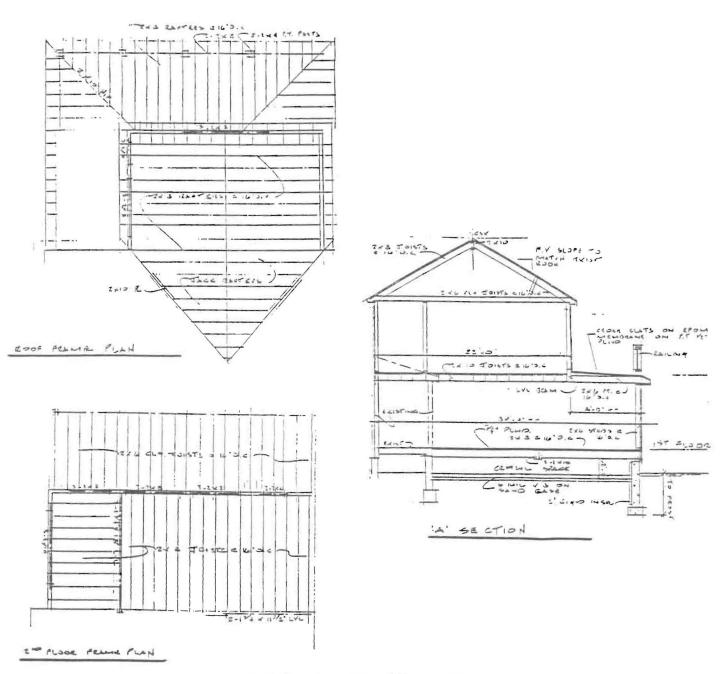

Figure 4. Typical Framing and Cross Section

These plans are all done by professionals, you can do your own plans for the purposes of residential construction, the plan does not have to be of this quality, but the level of detail and accuracy is important. When proposing and addition, similar plans are required, the same goes for a detached garage or an attached deck.

18. The boiler shall be protected by enclosing with (1)hour fire rated construction including fire doors and ceiling, or by providing automatic extinguishment. (Table 302.1.1) All single and multiple station smoke detectors shall be of an approved type and shall be installed in accordance with the provisions of 19. the City's Building Code Chapter 9, Section 920.3.2 (BOCA National Building Code/1996), and NFPA 101 Chapter 18 &19. (Smoke detectors shall be installed and maintained at the following locations): In the immediate vicinity of bedrooms In all bedrooms In each story within a dwelling unit, including basements In addition to the required AC primary power source, required smoke detectors in occupancies in Use Groups R-2, R-3 and I-1 shall receive power from a battery when the AC primary power source is interrupted. (Interconnection is required) Section 920.3.2. 20. A portable fire extinguisher shall be located as per NFPA #10. They shall bear the label of an approved agency and be of an approved type. (Section 921.0) 21. The Fire Alarm System shall maintained to NFPA #72 Standard. 22. The Sprinkler System shall maintained to NFPA #13 Standard. All exit signs, lights and means of egress lighting shall be done in accordance with Chapter 10 Section & Subsections 1023.0 & 1024.0 23. of the City's Building Code. (The BOCA National Building Code/1996) Section 25-135 of the Municipal Code for the City of Portland states, "No person or utility shall be granted a permit to excavate or open 24. any street or sidewalk from the time of November 15 of each year to April 15 of the following year". 25. The builder of a facility to which Section 4594-C of the Maine State Human Rights Act Title 5 MRSA refers, shall obtain a certification from a design professional that the plans commencing construction of the facility, the builder shall submit the certification the Division of Inspection Services. 1-26. Ventilation shall meet the requirements of Chapter 12 Sections 1210.0 of the City's Building Code. (Crawl spaces & attics). X27. All electrical, plumbing and HVAC permits must be obtained by a Master Licensed holders of their trade. No closing in of walls until all electrical (min. 72 hours notice) and plumbing inspections have been done. 28. All requirements must be met before a final Certificate of Occupancy is issued. <u>X 29.</u> All building elements shall meet the fastening schedule as per Table 2305.2 of the City's Building Code (the BOCA National Building Code/1996). × 30. (31) × 32. × 33. Ventilation of spaces within a building shall be done in accordance with the City's Mechanical Code (The BOCA National Mechanical Attached Regiun Code/1993). (Chapter M-16) Please read and implement the attached Land Use Zoning report requirements.
