RE: 41 Barclay Avenue – 339-D-011 & 012 – R-3 Zone – permit application #02-0998

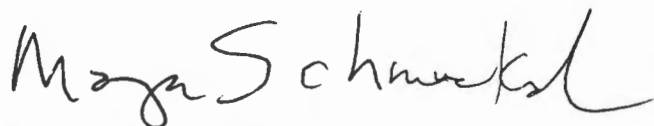

Dear Jim,

I am in receipt of your application to construct a new single family dwelling at 41 Barclay Avenue. There seems to be some difference of opinion as to the width of this lot. As part of your application Cumberland Title Company states that “this parcel has approximately 60 feet of frontage on Barclay Avenue. It has already been confirmed that this is considered to be a lot of record which requires a minimum lot width of 65 feet. Your submitted plan states that the lot width is 65’ 8”. Any new or further review would require documentation to verify the correct and accurate width of lot.

I have also found that the proposed structure **does not** meet the required setbacks in the R-3 zone. This split level is considered a two story building. Your plans are not showing the appropriate setbacks for a two story. In the definitions section of the ordinance (14-47) for “story”, it reads, “A basement shall be counted as a story for the purpose of height measurement where more than one-half of its height is above the average level of the adjoining ground”. The construction and elevation plans clearly show that well over one-half of the basement level is above grade. I considered the proposed building to be a two story building. A two story building in an R-3 zone requires a fourteen (14) foot side setback on both sides. The ordinance does allow one side to be reduced to not less than eight (8) feet, if for every foot that is reduced on one side, it is added to the opposite side requirement. You have reduced one side to ten (10) feet. This means that the opposite side requirement shall be a minimum of eighteen (18) feet. Your plan only shows sixteen (16) feet on the opposite side of the building. Your permit is **denied** because your plans do not meet the current zoning requirements of the R-3 zone.

You have the right to appeal this decision. If you wish to exercise your right to appeal, you have 30 days from the date of this letter in which to do so. Please contact this office for the necessary paperwork needed to make an application to appeal.

Very truly yours,

RE: Former Joyce Property; Barclay Avenue, Portland

339-D-11-12

Dear Mr. Wolf:

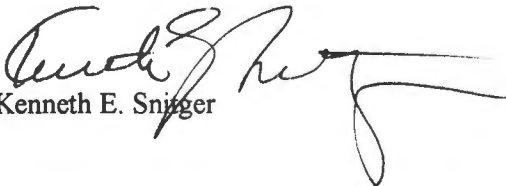

Pursuant to your request we conducted a title examination of the referenced property as the same is described in a deed from John F. Marsh, Personal Representative of the Estate of Walter J. Joyce to Bono, Inc. Profit Sharing Plan, dated December 7, 2001, recorded in the Cumberland County Registry of Deeds in Book 17067, Page 42.

This deed conveys a parcel of land acquired by Joseph and Annie Joyce in a deed from Newton W. Harris dated March 9, 1922, recorded in said Registry in Book 1096, Page 458, which deed included Lots 216 and 217 as show on a plan entitled Plan of Harris Farms dated June 5, 1919, recorded in said Registry in Plan Book 14, Page 19.

The parcel passed by deed or through the Joyce family estates eventually into Walter Joyce and plan lots 216 and 217 remained as one parcel throughout the period noted.

This parcel has approximately 60 feet of frontage on Barclay Avenue.

Sincerely,

  
Kenneth E. Snitzer

OLD  
Denied permit

Jim,

I have just reviewed your most recent submittal of 12/9/02 for this project. On your submitted site plan you did not show the side porch and stairs. I scaled them out as approx. 3' x 7' from your building plans. These stairs project into your required setback. Instead of the 21+ feet shown, you actually have 18+ feet. Because you have reduced one side yard to 8+ feet, you are required to add the amount taken off to the other side. You still do not have the required amount of total setback.

This projection of the porch and stairs also encroaches into your required parking area.. You may be able to adjust that on your plans. However, I would need to see a revised plan with your choice of redesign for final approval.

Jim, as I have stated many times to you and other contractors; you must show ALL projections on your submitted site plans. Porches and steps and decks and other structures are required to meet the setbacks. Your site plan MUST MATCH the construction plans. Presently it does not.

Your permit is still denied at this point until a submittal meets the current zoning ordinance.

Recently I had plans revised plans delivered for 41 Barclay. The plans included a survey, site plan and building plans. Would you please update me as to the review status. Gail at the desk was unable to locate any notes in the computer and suggested I contact you.

Also, do you know where I can obtain a current list of the Board of Appeals Members?

Thank you for your help

RE: 41 Barclay Avenue, Portland – 339-D-11 & 12  
Permit application #02-0998

Dear Marge:

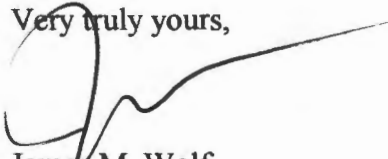

I am in receipt of your letter dated November 15, 2002, which I received November 19, 2002.

Pursuant to a survey plan prepared by Titcomb Associates the lot is 65.68 ft. wide along Barclay Avenue, 65.54 ft. wide at the rear and 100 ft. deep. For your reference I have enclosed a copy of the survey plan. This is consistent with City Tax Map 339-D-11-12.

By separate correspondence I will forward a revised site plan and building plan. Both my consultant and I did not realize a split-level home was treated as a 2-story home for setback purposes. A new plan will be submitted correcting our mistake.

Thank you for your review.
