Hey Chris - are you able to save this email (at least his response) as a document in the system? Vicki was able to grant me the permissions I need to save documents from e-plan to the G drive but I haven't figured out yet how to do this. I'll work on that. Also, because I am able to save the documents, is it o.k. with you if I start granting some of the easy ones (pools and sheds and HVAC)?

Thanks, Brian. This is helpful. I assumed there was sufficient distance but because the measurements on plan you sent aren't to scale, this confirmation will be helpful for our records. I appreciate your quick response.

My apologies Jennifer. I probably neglected to provide that info because the distance from the left and right side is quite a bit over 10 ft from the property line. The distance on the left side is 18 feet and the right side is 35 feet. I updated the picture in case you need that as well to replace the original.

Best Regards,
Brian Bouchard

Good morning, Mr. Bouchard -

I am in the process of reviewing your application to place an above-ground pool at 54 Ninth Street. As you are likely aware, the City of Portland's zoning code requires that pools be located at least 10 feet from both the rear lot line and the side lot lines. The plan you submitted in support of your application depicts the setback from the rear lot line but I can't tell how far away from the side lot lines the pool will be. Can you please send along those measurements so I can determine whether your application meets the City's code requirements?

Thanks so much,

Best,
Jen
