Doug, Jim:

Comments: (standard 8, plus 2 additional)

1. There is some question whether sufficient right, title, and interest has been provided by Dwight Brackett, the applicant. I will defer to our legal dept. on this item.
2. It was brought to my attention that the elevation of the bulkheads may be an issue. Being that the elevation is approx. 1.5 feet lower than the top of foundation, either the lot grading or the finish floor elevation may be unattainable. Please elaborate.
3. The entry ways don't match on the Building elevations and Site plan.
4. The zoning administrator indicated that the rear steps should be shown on the site plan.
5. Please label the 20 rear setback as the 20 undisturb buffer (as labeled on the subdivision approval).
6. There is a note that says "existing contour prior to construction", which points to contours in the undisturb zone. Being that no changes are allowed in this area, I'm uncertain of the need for this note. Please remove.
7. There is silt fence on the upper part of the lot. I'm unsure how purposeful this will be. Perhaps along the front of the lot (lower) would be more applicable.
8. "3 white pines by roadway developer" note is wrong. These are guaranteed under the site performance guarantee under lot 3. Please correct or remove note.
9. One of the street trees is located directly on a Fire Hydrant.
10. The street trees on this side of the road are very close to the underground electrical/telephone/cable conduits. Will both the street trees and conduit be able to go in the esplanade as proposed?
