Federal law requires us to consider compliance with state and local law when acting upon such applications. In order for us to act upon this application in a timely manner, we need the following information from your office:

whether your zoning code allows conduct of a firearms business (retail sales, gunsmithing, etc) at the above premises without need for variance from such code

if a variance is needed, whether a variance has been granted or whether action on a variance is pending

if action on a variance request is pending, or if a variance request is filed within the next 30 days, whether final action on such variance is likely to be completed within 60 days

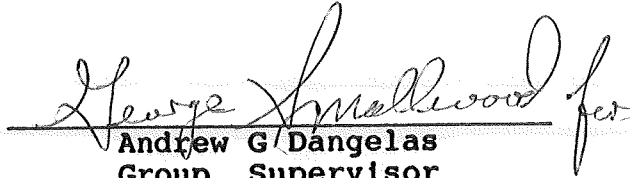

whether the code is strictly enforced by either you or any other city/town official or department

if the code is strictly enforced, whether you or any other responsible city/town official would be willing to testify to any or all of the above at a formal ATF administrative hearing should ATF deem it necessary.

Your prompt response would be appreciated. Please use the attached letter if appropriate and convenient.

If your response indicates a firearms business may not be conducted at the above premises, please include a copy of the applicable code or citation of the code for our files.

If we do not receive a response from you within 14 days of the date of this letter, we will continue to process the application.
