RE: 1420 Washington Ave satellite antenna

Dear Ms. Schmuckal;

I have received your letter regarding this satellite antenna. I would like to explain what I have done to date regarding this permit situation:

On 3/17/00 I spoke to Jennifer and she indicated that I need to send in drawing showing the antenna's location and specs on the pole to be installed. I sent these to her on 3/17/00.

On 3/31/00 I spoke to Jennifer and she indicated that we "should" be exempt from planning and zoning and that she would double check.

On 5/3/00 I did not speak to Jennifer but I was told that they did not show the application as being filed. Call back

On 6/5/00 Called back and now was told Jennifer was on maternity leave and I need to speak to you (Marge Schmuckal)

This antenna is on a temporary mount and will be getting installed on a 10' pole now that ground has thawed. I believe Eva Schools has passed away and the property will be up for sale soon -- apparently there is a 5 year lease signed stating the new owner cannot remove the antenna if the property is sold.

I am very anxious to get the planning issues resolved, please indicate to me what information you need to prevent the antenna from coming down. But please understand I was under the impression from Jennifer we could be exempt from all this so I did not pursue the matter at an expeditious pace.

Thank you,
Lisa Smith

RE: 1420 Washington Avenue 344-G-31 -R-P and R-3 Zone

Dear Mrs. Schools,

On February 16, 2000 I sent you a letter by certified mail notifying you that a satellite dish had been installed on your property without the proper permits nor a required site plan review. This office did receive an application for a site plan exemption on 3/14/00 from Communications Link Service Corp. located in Framingham, MA. However, no plans of any kind were submitted with this request and therefore, no review of the project could be performed. The satellite dish has never been approved and is still illegally placed.

The illegal placement of this structure will no longer be tolerated. You are required to remove this illegal structure within 10 working days. If the satellite dish has not been removed in its entirety by June 26, 2000, this matter shall be turned over to our Corporation Counsel for legal action without further notification to you.

Very truly yours,

Marge Schmuckal
Zoning Administrator
