Hello George and Don,
Please see attached application and documents for 174 Plymouth St. Thank you for visiting the site with us, that helped us with some important decisions. We will be constructing a dormer which will increase the headroom and the upper landing. Please let me know as soon as you can if we are missing anything as we are hoping to get this going as soon as possible.

Was I correct in calculating the permit fee as \$470?

Thank you very much for the help!

Ben Love
