Dept: Zoning **Status:** Approved with Conditions **Reviewer:** Ann Machado **Approval Date:** 10/12/2010**Note:** **Ok to Issue:**

- 1) Separate permits shall be required for future decks, sheds, pools, and/or garages.
- 2) This property shall remain a single family dwelling. Any change of use shall require a separate permit application for review and approval.
- 3) This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.

Dept: Building **Status:** Approved with Conditions **Reviewer:** Jonathan Rioux **Approval Date:** 10/15/2010**Note:** **Ok to Issue:**

- 1) Fastener schedule per the IRC 2003
- 2) Hardwired interconnected battery backup smoke detectors, and a Carbon Monoxide Detector hardwired, or plug in with battery backup shall be installed in all bedrooms, protecting the bedrooms, and on every level.
- 3) The basement is NOT approved as habitable space. A code compliant 2nd means of egress must be installed in order to change the use of this space.
- 4) The design load spec sheets for any engineered beam(s) / Trusses must be submitted to this office.
- 5) Separate permits are required for any electrical, plumbing, sprinkler, fire alarm HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems and fuel tanks. Separate plans may need to be submitted for approval as a part of this process.
- 6) Application approval based upon information provided by applicant. Any deviation from approved plans requires separate review and approval prior to work.

Dept: DRC **Status:** Approved with Conditions **Reviewer:** Philip DiPierro **Approval Date:** 09/24/2010**Note:** **Ok to Issue:**

- 2) The limits of allowable clearing shall be clearly marked with flagging or temporary fencing. Absolutely no clearing is to take place within, or encroach into the "do not disturb/no cut" zone. All conditions listed in the approved subdivision plan, as they relate to this lot shall be followed.
- 3) Erosion and Sedimentation control shall be established and inspected by the Development Review Coordinator prior to soil disturbance, and shall be done in accordance with Best Management Practices, Maine Department of Environmental Protection Technical and Design Standards and Guidelines. All Erosion and Sedimentation control measures must be inspected and maintained daily.
- 4) The Development Review Coordinator reserves the right to require additional lot grading or other drainage improvements as necessary due to field conditions.
- 5) A street opening permit(s) is required for your site. Please contact Carol Merritt ay 874-8300, ext. 8822. (Only excavators licensed by the City of Portland are eligible.)

Lessee/Buyer's Name	Phone:	Permit Type: Single Family	

- 6) A sewer permit is required for your project. Please contact Carol Merritt at 874-8300, ext . 8822. The Wastewater and Drainage section of Public Services must be notified five (5) working days prior to sewer connection to schedule an inspector for your site.
- 7) All damage to sidewalk, curb, street, or public utilities shall be repaired to City of Portland standards prior to issuance of a certificate of occupancy.
- 8) The Development Review Coordinator (874-8632) must be notified five (5) working days prior to date required for final site inspection. Please make allowances for completion of site plan requirements determined to be incomplete or defective during the inspection. This is essential as all site plan requirements must be completed and approved by the Development Review Coordinator prior to issuance of a Certificate of Occupancy. Please schedule any property closing with these requirements in mind.
- 9) Two (2) City of Portland approved species and size trees must be planted on your street frontage prior to issuance of a Certificate of Occupancy.
- 10) All Site work (final grading, landscaping, loam and seed, street trees) must be completed prior to issuance of a certificate of occupancy. If site work cannot be completed due to seasonal conditions, a performance guarantee equal to the cost of completing the site work will be required prior to the issuance of the temporary certificate of occupancy.

Comments:

9/10/2010-amachado: Spoke to Dan Anderson. The front entry porch on the site plan needs to be shifted to the right to reflect the building plans. Once this is done, zoning is all set.

10/12/2010-amachado: Received revised site plan.

10/15/2010-jrioux: Denied: Need plans that are not stamped "do not use for building permit".

10/27/2010-jrioux: Received amended plans, "bulkhead" and deck specs are still inadequate, and modifications may be required at field inspection.

Level I: Minor Residential Site Plan Application Portland, Maine

Portland's Department of Planning and Urban Development coordinates the development review process for site plan, subdivision and other applications under the City's Land Use Code. Attached is the application form for a Level I: Minor Residential site plan.

Level I: Minor Residential development includes:

- a. With respect to development of a single-family or a two-family building, excluding building additions, decks, or accessory structures, such development shall be deemed minor residential development for purposes of this article regardless of its size.
- b. The addition of any additional dwelling unit to a building initially reviewed as a two-family dwelling or multifamily structure, if the additional dwelling unit does not require subdivision review under Maine State Statutes and Portland's Subdivision Ordinance.

The Land Use Code (including Article V), the Technical Manual, and the Design Manual are available on the City's web site at <http://www.portlandmaine.gov/planning/default.asp> or copies may be purchased at:

Subject: Minor Residential Site Plan Application
143 Plymouth St. Portland, Maine

Dear Barbara,

Enclosed please find a complete Minor Residential Sites Plan application and supporting information for 143 Plymouth Street in Portland, Maine. Gorrill Palmer has been retained by Madd LLC. to prepare plans and for the proposed house located at 143 Plymouth Street, Portland, ME. The property has been surveyed by Titcomb Associates. The site is located on the City of Portland's Tax Map 345-B-9. The property is currently owned by Madd LLC.

The lot area is approximately 6913 S.F. of land with 65' of paved public road frontage and the total 1st floor area is 780 S.F. The property is undeveloped. The site has the ability to be served with public water, sewer, storm and electricity. Based on the size of the development, the project meets the definition of a minor development. Work is planned to start upon a building permit being issued

This application package describes the applicant's plans to develop the above-referenced parcel. We look forward to discussing this project with you during your review.

Site Description

The site is located on 143 Plymouth Street. The property is abutted by single family residences on the left and a single family to the right which is currently under construction. Single Family homes are located across the street. Currently, the topography is a flat sloping to the rear. The road is a paved public road with granite curbs and the subject lot has an approved driveway opening as part of the approved subdivision plan along with stubbed utilities for public water and sewer and a positive grade for storm drain.

Plymouth street is a city accepted road. The proposed home is situated to face Plymouth Street with its drive to the right of the house. There is not another drive within 25 feet of what is proposed.

Proposed Use

This proposal includes the construction of a 26X30 family home with 3 bedrooms and 1.5 baths. Building plans are included with this package.

Zoning

The location of the site is in zoning district R-3. Residential homes are a permitted use within this zone, space and bulk requirements for this zone are provided on the plans.

Title Right & Interest

Enclosed please a copy of the City Assessor's page showing Madd LLC as current owners.

Financial Capacity

A letter of financial capacity from TD Bank has been included which indicates the applicant's ability to undertake this project.

Utilities

Lots will have water service from the Portland Water District and City sewer via connection to the existing utilities in Plymouth Street. Central Maine Power will serve the sites, via over head service. Ability to serve letters are included with this package.

Flood Plain Mapping

The property is located in Zone X of the flood insurance rate map, community panel No2300510007C, which bears an effective date of December 8, 1998 and is not in a special flood hazard area. (See attached Map)

Erosion Control

The plans provide Erosion and Sedimentation measures by installing silt fence or wood based Berm

Waste Disposal

Solid waste disposal will be carried out through city trash collection.

Wetlands

Wetlands are not located onsite.

Re: 119-145 Plymouth Street, Portland
Ability to serve with PWD water - Updated letter

Dear Mr. Wolf:

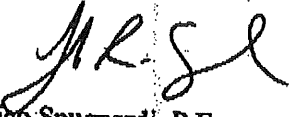

This letter is to confirm that there should be an adequate supply of clean and healthful water to serve the domestic water needs of the 5 proposed houses at 119-145 Plymouth Street in Portland. According to District records, there is an 8-inch water main on the northeast side of the street as well as a hydrant located near the property.

The current data from the nearest hydrant indicates there should be adequate capacity of water to serve the needs of your proposed project.

Hydrant Location: Plymouth Street @ # 113
Hydrant Number: POD-HYD01660
Static Pressure: 68 psi
Flow: 1113 gpm
Last Tested: 07/26/1994

Please notify your mechanical engineer of these results so that they can design your system to best fit the noted conditions. Please consult with the Portland Fire Department to determine if the fire service capacity is sufficient for your needs. If the District can be of further assistance in this matter, please let us know.

Sincerely,
Portland Water District

**RE: The Capacity to Handle the Anticipated Wastewater and Stormwater Flows,
from the Four Single Family Homes, at 119 to 145 Plymouth Street.**

Dear Mr. Wolf:

SANITARY INFORMATION

The existing eight-inch diameter polyvinyl chloride sanitary sewer pipe, located in Plymouth Street has adequate capacity to transport, while The Portland Water District sewage treatment facilities, located off Marginal Way, have adequate capacity to treat the anticipated wastewater flows of the 1,080 GPD.

Anticipated Wastewater Flows from the Proposed Four Single-Family Homes:

4 Single Family Homes, (Three-Bedroom) @ 270 G.P.D	=	1,080	GPD
Total Proposed Decrease in Wastewater Flows for this Project	=	1,080	GPD

Anticipated Stormwater Flows from the Proposed Four Single-Family Homes

The Average Design Stormwater for Twenty-Five Years

The Developed Property with 4 Single Family Homes/Driveways	=	.7350	CFS
	=	474,491	GPD
	=	330	GPM

All Intensity data references The Rain Atlas in the U.S. Department of Commerce Weather Bureau

STORMWATER INFORMATION

The City of Portland recognizes that the six-inch under-drain is a design for catchbasins to remove stormwater from the street. A direct connection of the under-drainage from a home on Plymouth Street to remove roof water or ground water during heavy rainstorms may cause a backup of stormwater into the home. Therefore City of Portland will require a Backwater-Preventer to be installed on the storm-drain for each house connecting to the under-drainage.

If The City can be of further assistance, please call 874-8829.

Sincerely,

Letter of Ability to Serve

Dear Paul:

Diversified Properties has retained Gorrill-Palmer Consulting Engineers, Inc. to prepare plans and permit applications for a proposed residential development on Plymouth Street in Portland, Maine. The development will consist of 5 residential lots. As required by the reviewing authorities, we are writing to request a letter indicating the ability of Central Maine Power to serve this project. A preliminary utility plan is enclosed for your review.

Description of Development Site

The project site consists of Map 345, Lots 9, 10, 11, 12, 13, 14, 15, and 16 as shown on the City of Portland Assessor's Map. The project site is currently undeveloped. Refer to Figure 1 - Location Map, attached to this letter, for the project location.

Abutting land uses include:

- North - Residential
- East - Residential
- South - Residential
- West - Residential

Project Description

The development of the site will include 5 residential lots and associated utilities.

Existing Service

Utility poles are located off Plymouth Street. At this time, it is anticipated that connection to these utility poles will provide electric service for the development. It is assumed that the proposed residential development would have an electrical demand similar to existing residential developments within the Portland area.

Ability to Serve

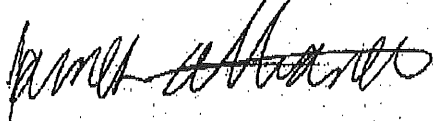

In support of the applications to the reviewing authorities, we are writing to request a letter indicating the ability of Central Maine Power Company to serve the project. In addition, we are interested in receiving:

- Information as to any easements that Central Maine Power, Co. may require on-site.
- Any estimate of connection fees.
- Any other information that you believe would be useful as this project proceeds.

Please contact me if you have any questions relative to this matter.

Sincerely,

Gorrill-Palmer Consulting Engineers, Inc.

James W. Attianese
Design Engineer
