The porch is 14 and a half feet from the side property line. The bottom step is 43 feet from the front property line.

Lloyd -

I have done my initial zoning review, but I need more information before I can sign off. You provided a plot plan but I need to know what the distance is from the steps to the front property line and what the distance is from the landing to the side property line.

Please send the information directly to me.

Thank you.
