Portland, Maine

c.c. Corporation Counsel

Dear Mr. Gaetano:

An Inspector from this office reports that you have erected or moved an accessory building on your property at the above address.

Under Section 113 of the BOCA BUILDING CODE, it is necessary that you apply at this office for a "belated building permit" to either move this building on to your lot or to construct it on your lot. It is also necessary that you provide a plot plan to go with your application showing the distances from the house, the rear line, the side line, and the front yard.

If we have not heard from you within 5 days from the receipt of this letter it will be necessary to certify the case to the Corporation Counsel for whatever action may be necessary to enforce the Ordinance.

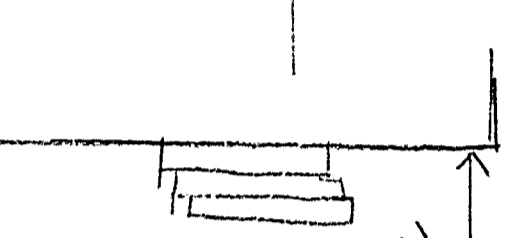

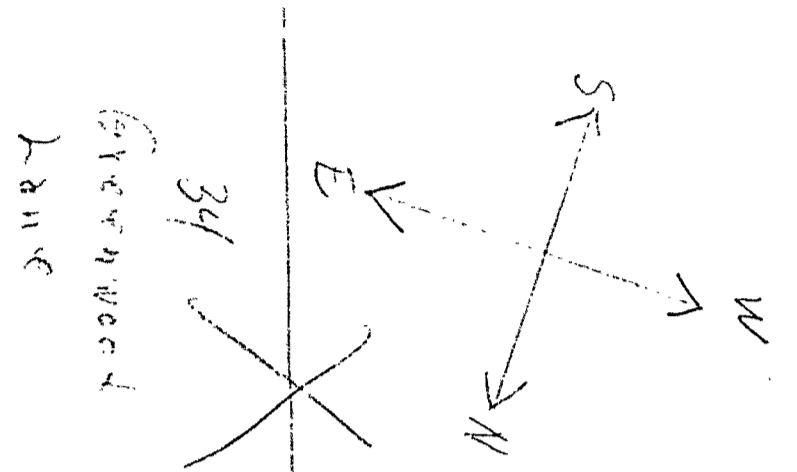

Very truly yours,

Earle S. Smith  
Plan Examiner

NOTICE RELATING TO SEWAGE DISPOSAL

x means copy sent to the parties (date) Oct. 10, 1966

Location Lot 4 Greenwood Lane Description Single family dwelling.

Owner and Address Robert M Chase, 179 Lambert St.

Contractor and Address " " " "

Architect or Engineer and Address \_\_\_\_\_

Actual Area of Lot 11,531 Sq. Ft. Zone R-3 Residence

Area required by Zoning Ord. if sewer were available 6,500

Where septic tank systems are required for sewage disposal, the Zoning Ordinance provides that the least allowable area of the lot shall be determined by the rate of percolation of the soil, this being the capacity of the soil to allow liquids to pass through as determined by tests. The Building Code directs that, where a septic tank is to be used, a building permit shall not be issued unless the proposed method of sewage disposal has been approved by the Director of Health.

Since application for the above permit indicates that connection to a sewer is not possible, it is necessary for the owner or his agent to file a site plan with the Health Department, to explain the method of sewage disposal proposed, and to make arrangements for a percolation test to be made under supervision of that department.

After the rate of percolation has been determined, the Director of Health will notify this department of the area of lot required on the basis of the results of the test. If the lot area required by the tests is equal to or less than the actual area of the lot and not less than the minimum lot area required in the zone in which the property is located for cases where connection to a sewer is available, the building permit can be issued; otherwise the permit cannot be issued unless authorization is secured from the Board of Appeals.

Albert J. Sears  
Director of Building Inspection

2 copies to Health Director  
\*\*\*\*\*  
(This space for Health Department use)

Inspector of Buildings

Rate of Percolation is 3 minutes. On this basis area required by Zoning Ordinance is 8400 sq. ft.
