CITY OF PORTLAND

Pg

April 23, 1937.

A. H. Hamilton
Devonport Street
off Washington Avenue
Portland, Maine.

Dear Sir:-

Referring to your application for a building permit to build a closed-in porch 10x12 feet upon the building on lot 31 Devonport Street, it will be necessary for you to indicate to this office a simple framing plan of this porch showing the location of the posts for foundation, the size and spacing of the floor joists and also the roof joists. Upon the application you state that the roof is to be a flat roof, that is, apparently not more than four inches to the foot pitch, and that you will use asphalt shingles. It is not practical to use shingles upon a flat roof. This question must be explained.

The application will be held in this office awaiting further information from you and in the meantime it is unlawful for you to proceed with any of the work until the permit is actually in your possession.

Yours truly,

Inspector of Buildings.
