Brad & Gail,

Please find attached a building permit application submitted by Bob Dunham, for proposed work on the Jeff and Laura Peterson residence at 39 Allison Ave. Portland ,Maine 04103. In the past weeks I had learned we needed to appeal for a variance, and have recently spoken to Jonathan Rioux. In my conversation with Jonathan Friday he was good enough to contact his direct supervisor Tammy and garner the needed “go ahead” we had appealed for, she stating that we keep the ceiling heights of the proposed family room renovation to 6’7”. At the ending of Friday’s conversation, Jonathan requested that I resubmit the building permit application, call Monday and potentially give our debit card number to purchase said permit.

In speaking with Gail and Brad today, despite my best efforts, it appears that the information I submitted was not received. Please take a moment to look over today’s resubmission. I appreciate all of your effort in making this a reality for us. Keep up the good work!

Sincerely,

Marybeth Dunham
