Unitil Joist Reinforcement
Riverside Industrial Park
Portland, Maine

Dear Guy:

Per our conversation, we visited the above referenced building on November 5, 2015 to review the joist reinforcement installation. Following that visit, we issued a field report detailing certain conditions not in conformance with our sketches SK#1 and SK#2 dated October 6, 2015. We understand that repairs were made this past weekend and we are in receipt of digital photos of those repairs. With the basis of the limited photos it appears that the repairs have been completed as requested and we take no further exception to the reinforcement installation.

If you have any questions, please feel free to contact us.

Sincerely,
BECKER STRUCTURAL ENGINEERS, Inc.
