Subject: First Tee

Barbara -

I have reviewed the 'First Tee' project at Riverside Golf Course and it will include an identified 'tree save' area (already marked in the field) along with the replanting of 12 - 24 deciduous and conifer trees. The tree sizes will conform to the Technical Standards. The trees are shown on the 'Exhibit 7' page of their package. I will work with the Riverside Golf Course staff to locate the trees once the project is ready for landscaping.

If you have any questions, let me know.

Thanks,

Jeff Tarling
