Attention Tori,

Per our conversation last week we are in need of making a correction to the FairPoint Road permit application. The work associated with the first two floors of the building is limited to finish replacement and as such do not require a building permit. The cost of this work was incorrectly included in the project cost value.

The work requiring a permit is specific to portions of the Second Floor. The total cost of this work will be \$1,440,000.00. The total amount of area impacted by new construction is limited to 2,390 square feet of area.

Thank you for making the correction.

Have a good afternoon,

Guy
