RE: Lot #11 Ballpark Drive - #371-A-041- R-2 Zone – application #05-0461

Dear Douglas,

Your permit to construct a new single family dwelling at lot #11 Ballpark Drive has been denied because we have not received all the required submittals in order to determine compliance with City Ordinances.

You have not submitted a scaled site plan showing the proposed, dimensioned structure. Your currently submitted site plan does not match your submitted building construction plans. Your site plan must show all projections, including, but not limited to, decks, stairs, chimneys, and bay windows.

When you applied for a building permit, the front staff did not charge you for a required minor/minor site plan review. Before we can complete your permit approval, you need to apply and be approved by planning under site plan review. Please review our new single family home application packet for all the required information for submittals

Your permit will be on hold until this office receives all the required information to determine compliance with City Ordinances.

Very truly yours,

A handwritten signature in cursive script that reads "Marge Schmuckal".
