Comments:

01/03/2006-ldobson: Applied for permit withdrawn then called to say he would be resubmitting new plans. Also, I made an error in calculations of fees that he is aware of. Permit is on hold until such time he brings in new plans. Lannie

02/13/2006-jmb: Spoke w/Matt F. About inconsistency of the building size. He confirmed it is under 500 sf at 16' x 31'. He will bring in revisions and reduced plans. Also talked about FSE plumbing requirements based on the intent of chips, soda, hot dogs. No grill or range. Also need the HHE 200 application for septic.

02/16/2006-jmb: Received revisions by fax and HHE 200 by mail also spoke w/Mark H. About septic details, esp. The field extensions, he will send revisions.

03/02/2006-jmb: Received HHE 200 revisions and will wait to review w/MJN before issuing, he is at a week long training. Also, Mark H. Said he is waiting to hear from the state if the septic system can be reduced in size.

02/25/2006-jmb: Received revisions from Matt F.

03/14/2006-jmb: MJN had the support staff sticker the HHE 200 for approval

03/17/2006-jmb: Matt F. Left a vm inquiring on the status, ok to issue

HAVERTY FIELD NORTH DEERING PORTLAND
STORAGE AND CONCESSION BUILDING

31' X 16'
(490 SF)

Jeanie Bourke
City of Portland
Code Enforcement Officer/Plan Reviewer

2/24/06

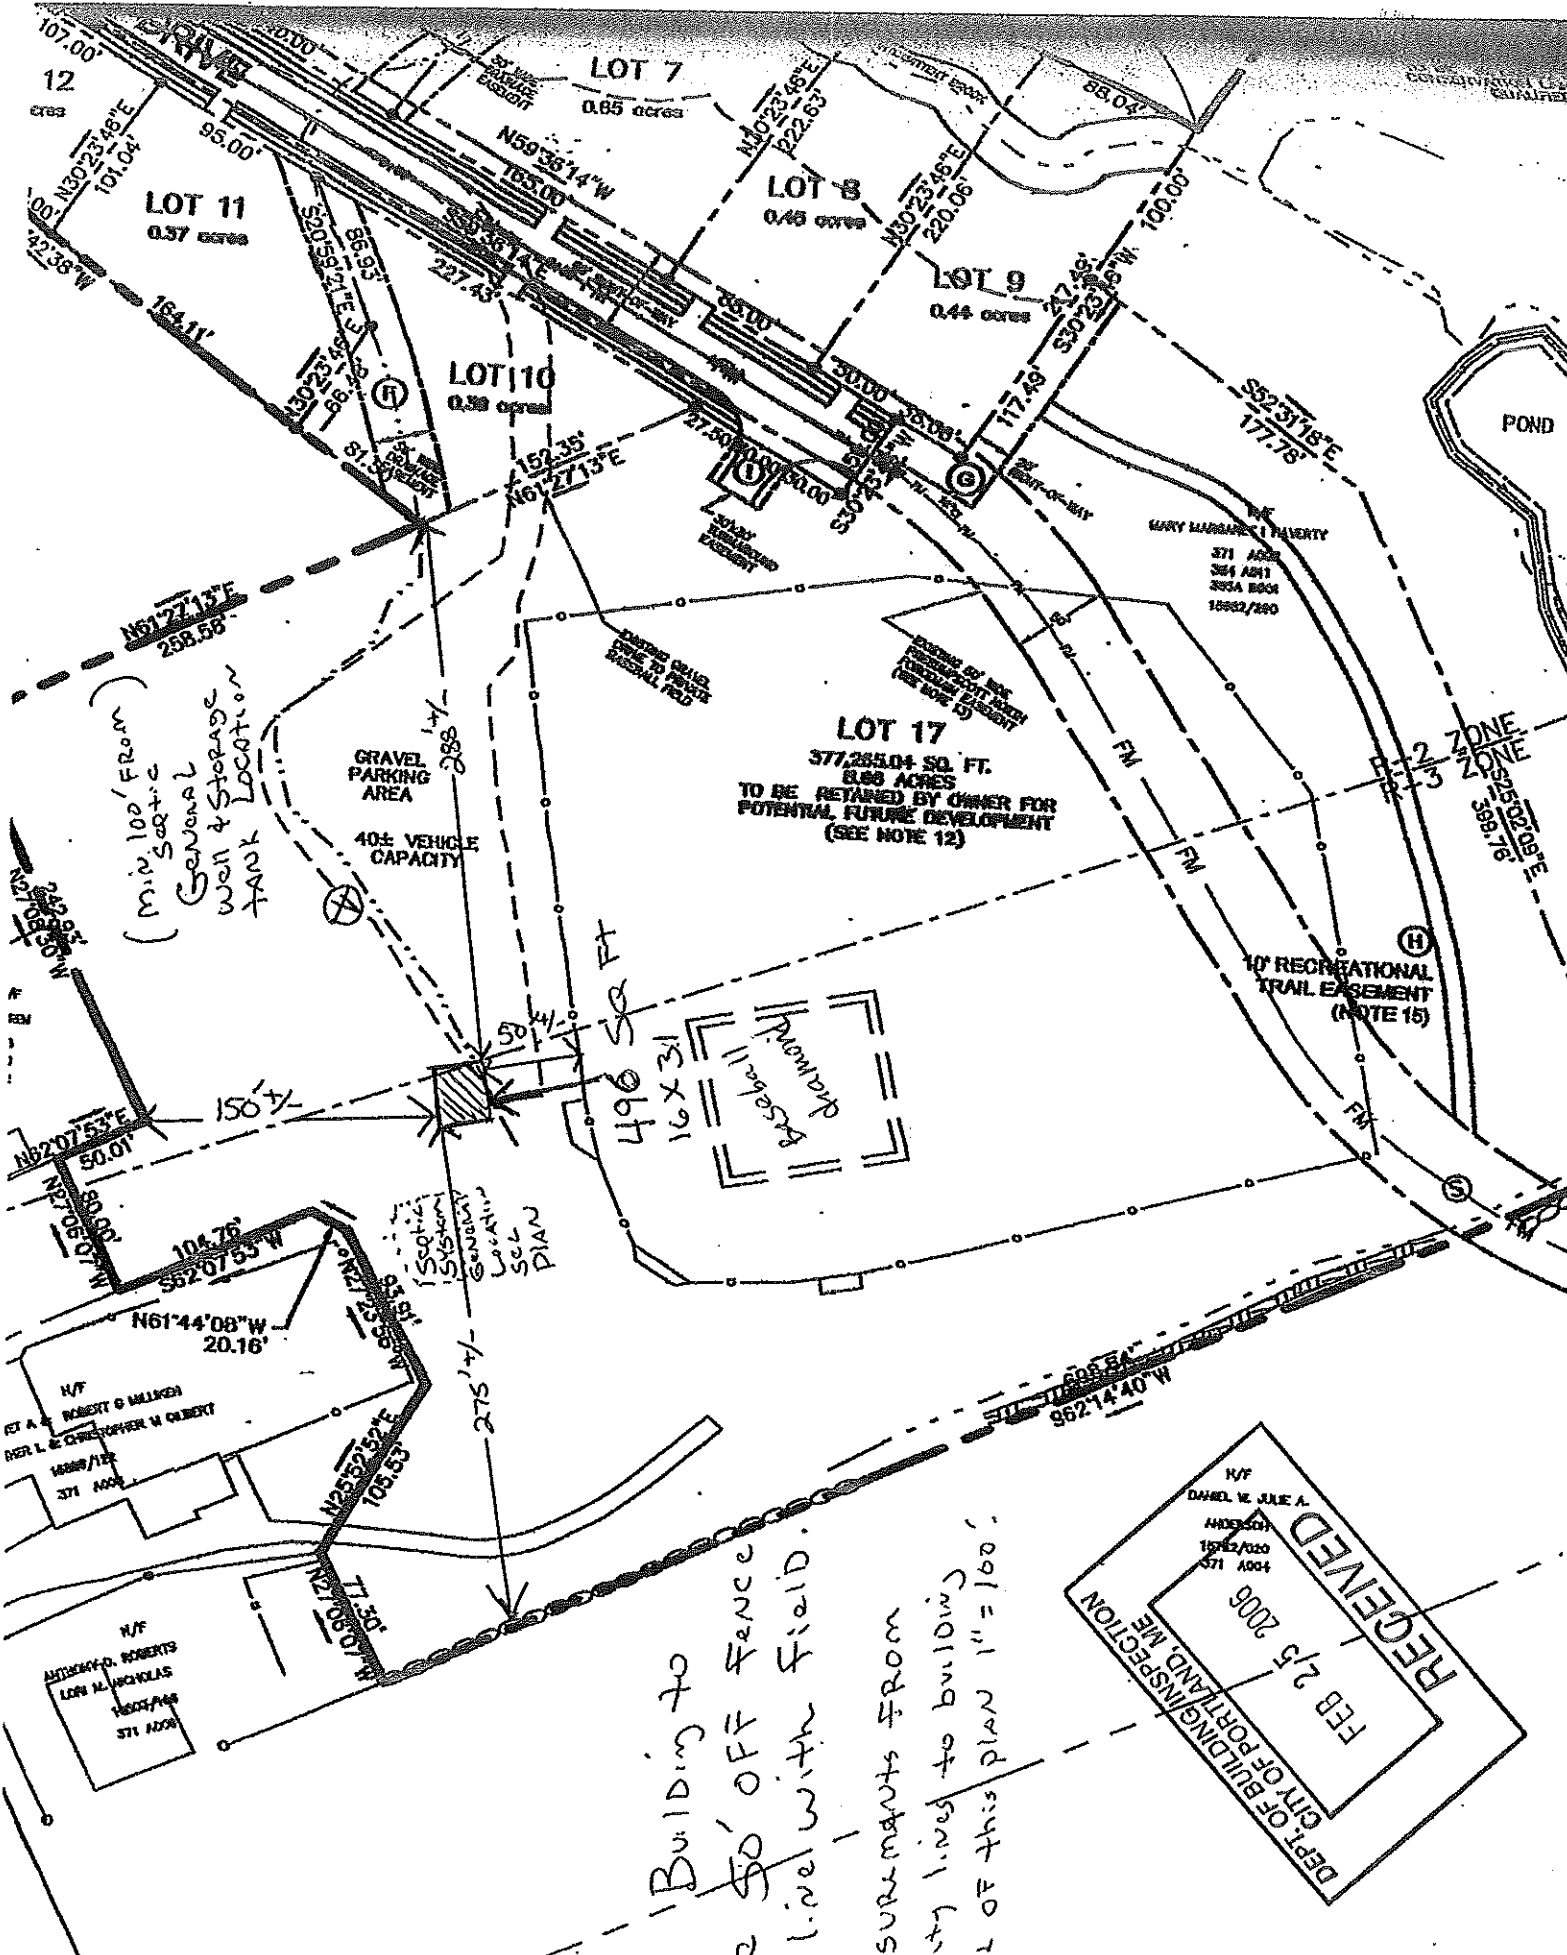

Hi Jeanie

Enclosed please find the information that I spoke about on your voice mail for Haverty Field. I think you now have everything you had requested. Please review and let me know.

1. Updated site plan. We moved the location of the building slightly based on feed back from contractors. It is now even further from our neighbors increasing the set back. I assume this is not an issue seeing that the required set back is 25' and we are at least 150 feet.
2. Based on feed back from a few baseball nuts, we have adjusted one wall giving the concessions area more room and storage a little less.
3. We added the hand wash sink as you had requested.
4. Enclosed the septic design prepared by Mark Hampton Associates.
5. Added to the site plan is general location of the well and possible water holding tank (if needed based on flow results from the well) we will not know this until we drill.

Thanks for your help
