Hello,

Please disregard last email, I was informed I used the wrong permit application.

I would like to fast track this if possible.

I would also like to state but not sure if it's possible, this permit application is for the addition of 2 roof skylights in an existing finished space, the condo association has already approved the additional skylights and this should not require zoning or fire department for any part of the installation or inspection process. Just giving you my professional opinion.

Thank you very much for doing whatever possible to make this permit as timely as possible.

Thanks,
TravisTravis Blake, CR.
