

Ann Marchado

We are requesting an appeal on the denial of our permit application for H&R Block at 125 Auburn Street. We believe the proposed sign meets the standards for approval. The proposed sign is proportionately scaled to enhance the architecture of the building & is conservative and professional in appearance. The colors are the same as those used in all H&R Block locations. We believe the colors and illumination fit the character of the neighborhood in which it is located. The illumination would be internal and front lit and use LED lighting. The sign would be powered by a 60 watt power supply. We believe the property has a unique circumstance in that there is a shopping plaza which H&R Block wished to advertise to. If you have any questions I can be reached at 603-644-0433 or at rolandparadisjr@gmail.com

Sincerely,
Roland Paradis
