Hi David,

I am in the process of reviewing your permit application to replace the roof at 18 Lambert St. I had two quick questions that I wanted to confirm - 1) Will the new roof style result in a slight total height increase for the building, and if so can you tell me how many feet? 2) Will the new roof result in a new habitable space upstairs? It doesn't look like it will, but I just wanted to check.

Thanks,
Chris

Thank you. answers to your questions about the height of the new roof and habitable space is the height will remain at the same height with no habitable space above.
