Title of Municipal Official: Zoning Administrator

Title 38 435 defines shoreland area as being within 250 feet above the normal high-water mark of any pond, river, or salt water body.

**REASONS FOR THIS FORM.** The Maine law prohibits a public utility from installing services to a lot or structure unless written authorization attesting to the validity and currency of all local permits required under the Subdivision Control Law and the Shoreland Zoning Law have been issued by the appropriate municipal officials. This prohibition is provided in M.R.S.A. 30-A 4406 for subdivisions and M.R.S.A. 38 444 for shoreland zoning.

Therefore, prior to installing service, it is necessary to have the appropriate municipal officials (usually the Planning Board or Code Enforcement Office) certify that these laws do not apply (because the lot or structure is not part of a subdivision or a shoreland zoning area), or, if either or both laws apply to the lot or structure, certify that all local permits and/or authorizations required for the lot or structure have been obtained and are still valid.

The Company appreciates your cooperation in the completion of these forms so that the municipal residents and the Companies customers can be served.

**CONFIRMATION FOLLOWING INSTALLATION**

Once installation has been completed, this form is being sent to the municipality as required by law.
