APPLICATION FOR PERMIT FOR HEATING, COOKING OR POWER EQUIPMENT

Portland, Maine, January 15, 1960

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

The undersigned hereby applies for a permit to install the following heating, cooling or power equipment in accordance with the Laws of Maine, the Building Code of the City of Portland, and the following specifications:

Location Lot 2, Curtis Road Use of Building Dwelling No. Stories 2 New Building Extension
Name and address of owner of appliance George Curtis, 1912 Washington Ave.
Installer's name and address Ballard Oil & Equipment Co., 135 Marginalway Telephone 2-1991

General Description of Work

To install Forced hot water heating system and oil burning equipment.

IF HEATER, OR POWER BOILER

Location of appliance Basement Any burnable material in floor surface or beneath? none
If so, how protected? Kind of fuel? oil
Minimum distance to burnable material, from top of appliance or casing, top of furnace 3'
From top of smoke pipe 3' From front of appliance 6' From sides or back of appliance 6'
Size of chimney, flue 8x12 Other connections to same flue none
If gas fired, how vented? Rated maximum demand per hour
Will sufficient fresh air be supplied to the appliance to insure proper and safe combustion? yes

IF OIL BURNER

Name and type of burner Iron Fireman-gunttype Labeled by underwriters' laboratories? yes
Will operator be always in attendance? Does oil supply line feed from top or bottom of tank? bottom
Type of floor beneath burner concrete Size of vent pipe 1 1/2"
Location of oil storage basement Number and capacity of tanks 1-275 gal.
Low water shut off Make No.
Will all tanks be more than five feet from any flame? yes How many tanks enclosed?
Total capacity of any existing storage tanks for furnace burners

IF COOKING APPLIANCE

Location of appliance Any burnable material in floor surface or beneath?
If so, how protected? Height of Legs, if any
Skirting at bottom of appliance? Distance to combustible material from top of appliance?
From front of appliance From sides and back From top of smokepipe
Size of chimney flue Other connections to same flue
Is hood to be provided? If so, how vented? Forced or gravity?
If gas fired, how vented? Rated maximum demand per hour

MISCELLANEOUS EQUIPMENT OR SPECIAL INFORMATION

Amount of fee enclosed? 2.00 (\$2.00 for one heater, etc., 50 cents additional for each additional heater, etc., in same building at same time.)

CITY OF PORTLAND, MAINE
Department of Building Inspection

Certificate of Occupancy

LOCATION Lot 10 Curtis Road

Date of Issue March 24, 1961

Issued to George Curtin
1912 Washington Ave.

This is to certify that the building, premises, or part thereof, at the above location, built—altered—changed as to use under Building Permit No. 59/1384, has had final inspection, has been found to conform substantially to requirements of Zoning Ordinance and Building Code of the City, and is hereby approved for occupancy or use, limited or otherwise, as indicated below.

PORTION OF BUILDING OR PREMISES
Entire

APPROVED OCCUPANCY
One family dwelling house
with attached garage.

Limiting Conditions:

This certificate supersedes
certificate issued

Approved:

(Date)

Inspector

Inspector of Buildings

Notice: This certificate identifies lawful use of building or premises, and ought to be transferred from owner to owner when property changes hands. Copy will be furnished to owner or lessee for one dollar.

Lot 10 Curtis Road

March 17, 1961

Mr. George Curtis
1912 Forest Avenue

Dear Mr. Curtis:

Upon inspection of the above job on March 14, 1961, the following defect was found which prevent us from issuing the certificate of occupancy--required by law to be in possession of the owner before the building may be lawfully occupied:

--Lally columns not fastened.

It is important that the above condition be corrected before March 31, 1961 and that you notify this office of readiness for another inspection, so that, if all is found in order, the certificate of occupancy required by law may be issued.

Very truly yours,

ESS/jg

Earle S. Smith
Field Inspector

P.S. Give me a ring when this is done George and I'll issue the certificate.

AP-Lot 10 Curtis Road

September 30, 1959

Mr. George L. Curtis
1912 Washington Avenue

cc to: N. T. Fox Co., Inc.
Att. Mr. J. H. Marks Jr.
24 Morrill Street

Dear Mr. Curtis:

Check of plans filed with application for permit for construction of a two story dwelling with attached garage at the above named location discloses variances from and questions as to compliance with Building Code requirements as listed below. Before a permit can be issued it is necessary that information indicating compliance be furnished either in writing or by revised plans for checking and approval. Details in question are as follows:

1. The 6x8 full size spruce or hemlock girder on spans of 8 feet will not figure out, but a 6x10 dressed Douglas Fir timber will do so. Will you use a timber of the latter size and species or cut down spacing of columns? - Use 6x10 DTF - see supplement my plan *O.K.*
2. Since the foundation wall is to extend more than 6 feet below grade, the straight 10 inch thick foundation wall indicated in application is not allowable. It is probable that a wider based wall than 10 inches is needed anyway for this two story building. } *Make 10" + 12" O.K.*
3. It is not permissible for sill to be as close to surface of ground as indicated on plans, a minimum clearance of 6 inches being required. - *Make - see 6" O.K.*
4. All corner posts of the two story section of building are required to extend in one length from sill to plate supporting rafters with lapped splices not less than 18 inches long allowed. - *O.K.*
5. Studs in outside walls of second story are required to extend down to the double 2x4 girts and not supported on shoes on top of second floor timbers as shown on plans. - *O.K.*
6. Piers for support of posts of front porch are required to extend at least 6 inches above the ground. - *O.K.*
7. Unless there are to be supports between sections of the picture window in rear wall, the 4x10 header indicated for opening will not figure out. *Changed 4x10 DTF O.K.*

Very truly yours,

Albert J. Sears
Inspector of Buildings

NOTICE RELATING TO SEWAGE DISPOSAL

(date) September 25, 1959

x means copy sent to the parties

Location Lot 10 Curtis Road Description Dwelling and Garage

Owner and Address George Curtis, 1912 Washington Ave.

Contractor and Address owner

Architect or Engineer and Address _____

Actual Area of Lot 10,684 Sq. Ft. Zone R-2 Residence Zone

Area required by Zoning Ord. if sewer were available 8,000 sq. ft.

Where septic tank systems are required for sewage disposal, the Zoning Ordinance provides that the least allowable area of the lot shall be determined by the rate of percolation of the soil, this being the capacity of the soil to allow liquids to pass through as determined by tests. The Building Code directs that, where a septic tank is to be used, a building permit shall not be issued unless the proposed method of sewage disposal has been approved by the Director of Health.

Since application for the above permit indicates that connection to a sewer is not possible, it is necessary for the owner or his agent to file a site plan with the Health Department, to explain the method of sewage disposal proposed, and to make arrangements for a percolation test to be made under supervision of that department.

After the rate of percolation has been determined, the Director of Health will notify this department of the area of lot required on the basis of the results of the test. If the lot area required by the tests is equal to or less than the actual area of the lot and not less than the minimum lot area required in the zone in which the property is located for cases where connection to a sewer is available, the building permit can be issued; otherwise the permit cannot be issued unless authorization is secured from the Board of Appeals.

Albert J. Sears
Inspector of Buildings

2 copies to Health Director

(This space for Health Department use)

Inspector of Buildings

Rate of Percolation is 10 minutes. On this basis area required by Zoning

Ordinance is 10,500 sq. ft
