NOTICE RELATING TO SEWAGE DISPOSAL

x means copy sent to the parties

(date) December 17, 1962

Location Lot 1 Curtis Road Description One family dwelling (1-story)

Owner and Address George P. Webster, 812 Riverside St.

Contractor and Address owner

Architect or Engineer and Address _____

Actual Area of Lot 12674 Sq. Ft. Zone R-2 Residence

Area required by Zoning Ord. if sewer were available 8000 sq. ft.

Where septic tank systems are required for sewage disposal, the Zoning Ordinance provides that the least allowable area of the lot shall be determined by the rate of percolation of the soil, this being the capacity of the soil to allow liquids to pass through as determined by tests. The Building Code directs that, where a septic tank is to be used, a building permit shall not be issued unless the proposed method of sewage disposal has been approved by the Director of Health.

Since application for the above permit indicates that connection to a sewer is not possible, it is necessary for the owner or his agent to file a site plan with the Health Department, to explain the method of sewage disposal proposed, and to make arrangements for a percolation test to be made under supervision of that department.

After the rate of percolation has been determined, the Director of Health will notify this department of the area of lot required on the basis of the results of the test. If the lot area required by the tests is equal to or less than the actual area of the lot and not less than the minimum lot area required in the zone in which the property is located for cases where connection to a sewer is available, the building permit can be issued; otherwise the permit cannot be issued unless authorization is secured from the Board of Appeals.

Albert J. Sears
Director of Building Inspection

2 copies to Health Director

(space for Health Department use)

Inspector of Building

Rate of Percolation is 10 minutes. On this basis area required by Zoning Ordinance is 10,500 sq. ft.

Comments in event zoning appeal is filed: _____

Paul R. VanDyke
Director of Health
