Hi Chris

Attached is a flyer with specs of pool outlined in addition to the deck ladder, and I've added two pictures of the actual structure from the floor model. You have purchased a 24' 510 series pool, with 9" top rail, resign tops and bottom tracks, 54" height aluminum walls, and verticals are apx 8" wide.

Hope this helps, if I can be of further assistance please let me know.

Thank You,
Tammy Auger
