Hi Chris

Save all to OneDrive - Personal

Attached is a flyer with specs of pool outlined in addition to the deck ladder, and I've added two pictures of the actual structure from the floor model. You have purchased a 24' 510 series pool, with 9" top rail, resign tops and bottom tracks, 54" height aluminum walls, and verticals are any 8" wide.

of outlined in addition to the deck ladder, and I've added from the floor model. You have purchased a 24' 510 series and bottom tracks, 54" height aluminum walls, and verticals.

Hope this helps, if I can be of further assistance please let me know.

Thank You,

Tammy Auger

er assistance please let me know.

IN-POOL STEP SYSTEMS

(Models IN-24 & IN-32)

IN-24

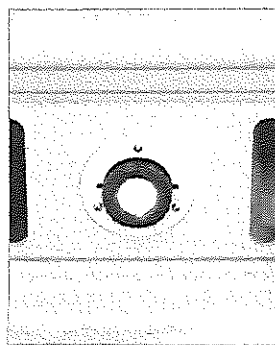

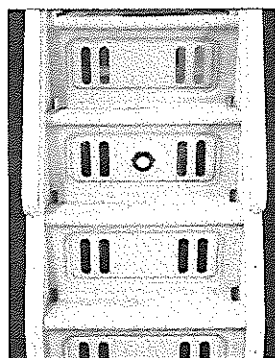

Both shown with
optional light

IN-32

FEATURES & SPECS

- Models available in either 24 inch or 32 inch width
- Full step entry for easy climbing
- Includes two sets of deck mount flanges for greater stability within pool
- Adjustable from 46" to 60" deck heights
- Minimal obstruction in pool - unit occupies only 22"
- Optional 12 volt in-pool light available
- Double, extended handrails on both sides for ease of climbing
- Anti skid treads for safe entry & exit
- Extremely easy assembly
- Maintenance free resin to maintain strength & color
- Stainless steel hardware
- Does not restrict water circulation - has great "flow-thru" design
- Available in both white & taupe colors

ADD AN IN-POOL
LIGHT TO ENHANCE
THE POOL
ENVIRONMENT
(Sold separately)
