Mr. Henry Oulette
40 Blanchard Road
Cumberland Center, ME 04021

REF: Pinelock Woods, Lot #19

Dear Sir:

Your application to construct a single family dwelling with attached garage has been reviewed and a building permit is herewith issued subject to the following requirements.

1. All lot lines and the lot shall be clearly marked before calling for a foundation inspection.
2. Please read and implement items 5, 6 and 7 of the attached sheet.
3. Your plan shows a line land of 45 PSF; a PSF is required.

If you have any questions on these requirements, please call this office.

Sincerely,

P. Samuel Hoffes
Chief of Inspection Services

PSH/dp

BUILDING PERMIT REPORT

DATE: 15/June/87

ADDRESS: Pineclack Woods Lot #19

REASON FOR PERMIT: Single Family dwelling with 2 car garage

BUILDING OWNER: Karen Kennedy / Donna Frost / Barbara Keesh

CONTRACTOR: Henry Vallet

PERMIT APPLICANT ✓

APPROVED: 5-6-7 ~~DENIED~~

CONDITION OF APPROVAL OR DENIAL:

- 1.) All vertical openings shall be enclosed with construction having a fire rating of at least one(1) hour, including fire doors with self-closers.
- 2.) Each apartment shall have access to two(2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units.
- 3.) Each apartment shall be equipped with an approved single station smoke detector powered by the house current. The detector shall be located in an area which will provide protection for the sleeping areas.
- 4.) The boiler shall be protected by enclosing with one(1) hour fire rated construction including fire doors and ceiling, or by placing over the boiler, two(2) residential sprinkler heads supplied from the domestic water.
- *5.) Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside opening without the use of separate tools. Where windows are provided as a means of egress or rescue, they shall have a sill height not more than 44 inches (1118 mm) above the floor. All egress or rescue windows from sleeping rooms must have minimum net clear openings of 5.7 square feet (0.53m²). The minimum net clear opening height dimension shall be 24 inches (610 mm). The minimum net clear opening width dimension shall be 20 inches (508 mm).

In addition, a series of specialized supports significantly adds to the quality and strength of your pool. Deck braces help support the weight of the surrounding deck and prevent shifting under changing climactic conditions. Skimmers have their own special mounting bracket, and jigs both align and support the ladder and handrail for strength and safety.

All liners feature a handsome tile and print pattern and are constructed from premium grade 20 mil virgin vinyl. Filtration and circulation systems as well as aluminum coping are fabricated from a variety of high technology materials which are highly resistant to corrosion.

Construction techniques depicted here are suggested standards only. Soil bearing conditions, water tables, and local building codes may allow or require variances.
