RE: Application for Building Permit for Installation of Patio Door  
658 Allen Ave Portland ME 04103

Dear Sirs:

Attached is my Fast Track application for a permit for 658 Allen Avenue in Portland ME. The permit application covers the removal of an existing window at the rear of our home as well as the replacement of said window with an Atrium (Patio) Door, the installation of a twelve foot ledger board intended to be used for the future permitted addition of a deck and the installation of lighting outside the atrium door. This application contains the various product specifications as well as installation instructions for the door and ledger board. The estimated materials and installation cost for this project will be approximately \$2,000. The total permit fee is therefore assumed to be \$40.00.

Please do not hesitate to contact me with any questions or concerns you may have regarding this application.

Respectfully Submitted,

Richard Wilber, Homeowner  
658 Allen Ave  
Portland, ME 04103
