Greg,

This is to inform you of a revision of the deck plan for the above address. In the original plan the stairs were coming off the front of the deck. Due to the slope of the property, we would either have to build up the ground to accept three stairs or dig down to add an additional step. I found that it would be more prudent to revise the plans and place the stairs on the side of the deck which only requires two steps.

Respectfully,

Gregory M. Goudey

704 Allen Avenue,

Portland, Maine 04103
