To whom it may concern,

I'm not sure what permit-application to use for this;

We are looking at placing two new satellite antennas in our rear parking spaces adjacent to the rear corner of our building. (a Google earth picture is attached) The mounts sit on the ground occupying a 18.6ft X 18.6ft foot area each. They are non "penetrating mounts" (a PDF of the mounts are also attached)

Thanks for your help. Please fell free to call me 207-756-1571 with any questions.

Best Regards,  
Craig Clark
