Carole -

The knee wall was not part of the original application. You need to submit a new building permit as an amendment to this permit. You can still fast track it but you need to show where the knee wall is located and a cross section of how it was built.

I added a new knee wall ... Let me know if I need to do anything else.

Thanks

It looks like an electrical permit (#201402267) was issued on 9/29/14 to finish the 2nd floor. Does the electrician need to schedule and inspection? I would call the Inspections Division front desk at 874-8703.

Did any of the building permit work change as a result of this or was the only change having to redo the wiring?

Hello Ann

I hope that this email finds you great.

I need to add additional work to the permit I pulled last October. When removing all the old out of the attic and found that the original owners did not remove the knob and tube as they stated in the sale paper work. I had to hire an electrician to re wire all of upstairs and bring everything to code in order to re new my home owners insurance.

He tried to get inspector out last week and couldn't. Please let me know what I need to do to get a new permit for the electrical work that has been done.

Thanks!

-carole

permit # 2013-02346

Here is the pdf you submitted. There is a line down towards the bottom of the first page that you have to initial. It is right above where you signed and dated it. Please send the completed form directly back to me.

Thanks.

Ann
