CONDITION(S) OF APPROVAL

1. This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.
2. During its existence, all aspects of the Home Occupation criteria, Section 14-410, shall be maintained.
3. The footprint of the existing \_\_\_\_\_ shall not be increased during maintenance reconstruction.
4. All the conditions placed on the original, previously approved, permit issued on \_\_\_\_\_ are still in effect for this amendment.

6. This property shall remain a single family dwelling. Any change of use shall require a separate permit application for review and approval.
7. Our records indicate that this property has a legal use of \_\_\_\_\_ units. Any change in this approved use shall require a separate permit application for review and approval.
8. Separate permits shall be required for any signage.
9. Separate permits shall be required for future decks, sheds, pool(s), and/or garage.
10. This is **not** an approval for an additional dwelling unit. You **shall not** add any additional kitchen equipment, such as stoves, microwaves, refrigerators, or kitchen sinks, etc. without special approvals.
11. Other requirements of condition This is **not** an approval to build on any right-of-ways or easements. The plot plan shows 20' from the Sewer ROW. If you have a change in plans that the easements would be breached, separate written permission would be needed along with a permit amendment.
