## BUILDING PERMIT INSPECTION PROCEDURES Please call 874-8703 (ONLY) or email: buildinginspections@portlandmaine.gov

## Check the Status or Schedule an Inspection On-Line at http://www.portlandmaine.gov/planning/permitstatus.asp

With the issuance of this permit, the owner, builder or their designee is required to provide adequate notice to the city of Portland Inspections Services for the following inspections. Appointments must be requested 48 to 72 hours in advance of the required inspection. The inspection date will need to be confirmed by this office.

- Please read the conditions of approval that is attached to this permit!! Contact this office if you have any questions.
- Permits expire in 6 months. If the project is not started or ceases for 6 months.
- If the inspection requirements are not followed as stated below additional fees may be incurred due to the issuance of a "Stop Work Order" and subsequent release to continue.
- Per Section 107.3.1 of the Maine Uniform Building and Energy Code (MUBEC). One set of printed approved stamped construction documents shall be kept at the site of work and shall be open to inspection by building officials.

## **REQUIRED INSPECTIONS:**

Footings/Setbacks Foundation/Rebar Close-in Plumbing/Framing Electrical Close-in Final Inspection

The project cannot move to the next phase prior to the required inspection and approval to continue, REGARDLESS OF THE NOTICE OF CIRCUMSTANCES.

IF THE PERMIT REQUIRES A CERTIFICATE OF OCCUPANCY, IT MUST BE PAID FOR AND ISSUED TO THE OWNER OR DESIGNEE BEFORE THE SPACE MAY BE OCCUPIED.

|   |   |                     |                   |                |  |  |  |

3) Required only in areas affected by the renovation:

Single-station photoelectric smoke alarms are required. They shall be powered by the building's electrical service with battery backup and shall be interconnected. Smoke alarms shall be installed in the following locations:

(1) All sleeping rooms

(2) Outside each separate sleeping area, in the immediate vicinity of the sleeping rooms

(3) On each level of the dwelling unit, including basements.

Single-station Carbon Monoxide (CO) alarms are required. They shall be powered by the building's electrical service with battery backup and shall be interconnected. CO alarms shall be installed in the following locations:

(1) Outside each separate dwelling unit sleeping area in the immediate vicinity of the bedrooms

(2) On every occupiable level of the dwelling unit, including basements, excluding attics and crawl spaces

4) A sprinkler system is recommended but not required based on the following:

Plans indicate the addition will not exceed \_50\_% of the total completed structure.

Contractor states renovation of the existing structure plus addition will not exceed 50% of the completed structure.
