Dear Sir:

Your application to construct a single family dwelling has been reviewed and a building permit is herewith issued subject to following requirements.

1. Every sleeping room below the fourth story in building of Use Group R shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside opening with the use of separate tools. Where window are provided as a means of egress or rescue, they shall have a sill height not more than 4' inches above the floor. All egress or rescue window from sleeping rooms must have a minimum net clear opening of 5.7 sq. ft. The minimum net clear opening height dimension shall be 24 inches. The minimum net clear opening width dimension shall be 20 inches.

2. A minimum of one single station smoke detector, shall be installed within buildings of Use Group R-3. It shall be installed in a manner and location approved by the authority having jurisdiction. When actuated, the detector shall provide an alarm suitable to warn the occupants within the individual building. In buildings having basements or cellars an additional smoke detector shall be installed in the basement or cellar in a location approved by the authority having jurisdiction.

3. No work is to be started until you have contacted Mr. George Flaherty of the Parks and Public Work Dept. for requirements on sewer and road access.
If you have any questions on these requirements please call this office.

Sincerely,

P. Samuel Hoffses
Chief of Insp. Services

cc George Flaherty P.P.W.
