---

No we are not installing a hood, the hood is existing already for group main stream, we are installing a fire suppression system into the pre existing hood.

Brian, is this for a kitchen hood? If so, the attached is the correct file to provide. Also, please review the owner information.

The owner information on your application does not match what is on the assessor's information for ownership of this property. All applications must show right, title & interest for the proposed work. Right, title & interest can be proven by providing documentation showing the changing of ownership (usually by providing a copy of the first page of the purchase and sales agreement. If this is a lease, then a copy of the lease showing they have right, title, and interest to do the work performed, or a letter or note expressing approval from the owner. Your application will stay on hold until this information has been received.
