Demerest Street Extension

Habitat for Humanity

The changes made to the plans are due to the decision to eliminate the high entrance on the north side, and a consequent modification of the floor plans. The changes are the same on both houses, just in mirror reverse, as they face each other across the street. Both floor plans are redrawn, as are the two primary elevations.

Everything else remains the same: house size, location on lot, orientation, number of bedrooms, stair design, roof pitch, structure, etc. I hope it is possible to keep the initial plans on file for reference to these details.
