Laurie,

Ron has asked me to provide you with some additional clarification regarding the changes to our project. Attached is the change log that has been highlighted to reflect the items that are specifically code related along with a couple of additional that Ron feels you might want to just take a look at as well.

The highlights of the changes are:

- Elevator Room moved
- Zip Wall Change
- Fire Pump Move per Fire
- Reconfiguration of room 323

Ann,

Please see attached site plan changes that reflect the removal of the carports. Please let me know if this is acceptable and how you would like me to provide the final stamped drawings. Ron asked that I let you know that there are no other exterior impacts other than the elevator room move and all associated elevations are on sheet A6.3b that we have already submitted.

Please let Ron or I know if you have any additional questions or need anything further.

Thanks,

Kris McBride
