# BUILDING PERMIT INSPECTION PROCEDURES Please call 874-8703 (ONLY) or email: buildinginspections@portlandmaine.gov

# Check the Status or Schedule an Inspection On-Line at http://www.portlandmaine.gov/planning/permitstatus.asp

With the issuance of this permit, the owner, builder or their designee is required to provide adequate notice to the city of Portland Inspections Services for the following inspections. Appointments must be requested 48 to 72 hours in advance of the required inspection. The inspection date will need to be confirmed by this office.

- Please read the conditions of approval that is attached to this permit!! Contact this office if you have any questions.
- Permits expire in 6 months. If the project is not started or ceases for 6 months.
- If the inspection requirements are not followed as stated below additional fees may be incurred due to the issuance of a "Stop Work Order" and subsequent release to continue.
- Per Section 107.3.1 of the Maine Uniform Building and Energy Code (MUBEC). One set of printed approved stamped construction documents shall be kept at the site of work and shall be open to inspection by building officials.

## **REQUIRED INSPECTIONS:**

Setbacks and Footings Prior to Pouring Foundation/Backfill Close-in Plumbing/Framing Electrical Close-in Certificate of Occupancy/Final Final - DRC Site VISIT Final - Fire

The project cannot move to the next phase prior to the required inspection and approval to continue, REGARDLESS OF THE NOTICE OF CIRCUMSTANCES.

IF THE PERMIT REQUIRES A CERTIFICATE OF OCCUPANCY, IT MUST BE PAID FOR AND ISSUED TO THE OWNER OR DESIGNEE BEFORE THE SPACE MAY BE OCCUPIED.

Proposed Use:       Proposed Project Description:         Single-Family Home       Construct a new, two story, single-family home (28' x 32' & 8 with an attached two car garage (576 SF) a deck (192 SF) & 4' covered porch (32 SF)											
Dept: Zoning Status: Approved w/Conditions R	eviewer:	Ann Machado	Approval Da	ate: 02/23/2016							
Note: R-3 Zone Ok to Issue:											
Conditions:											
<ol> <li>This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.</li> </ol>											
<ol> <li>This property shall remain a single family dwelling. Any change of use shall require a separate permit application for review and approval.</li> </ol>											
3) This permit is being issued with the condition that before the certificate of occupancy is issued, our office needs to receive a copy of the recorded deed for this lot.											
<ol> <li>As discussed during the review process, the property must be clearly identified prior to pouring concrete and compliance with the required setbacks must be established. Due to the proximity of the right side setback of the proposed building, it may be required to be located by a surveyor.</li> </ol>											
Dept: Building Inspecti Status: Approved w/Conditions R	eviewer:	Tammy Munson	Approval Da	ate: 02/24/2016							
Note:				Ok to Issue: 🗹							
Conditions:											
1) The design load spec sheets for any engineered beam(s) / Trusse	s must be s	ubmitted to this o	ffice.								
<ol> <li>Hardwired photoelectric interconnected battery backup smoke detectors shall be installed in all sleeping rooms, protecting outside these rooms, and on every level.</li> </ol>											
The same is required for existing buildings, where permanent wiring is feasible; or at the very least battery operated smoke detectors are required. Verification of this will be upon inspection.											
3) Separate permits are required for any electrical, plumbing, sprinkler, fire alarm, HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems, fire suppression and fuel tanks. Separate plans may need to be submitted for approval as a part of this process.											
<ol> <li>Egress size windows are required (1) in each bedroom per IRC Sec. R310 or per the State Fire Marshal policies for existing buildings.</li> </ol>											
5) Carbon Monoxide (CO) alarms shall be installed in each area within or giving access to sleeping rooms. That detection must be powered by the electrical service (plug-in or hardwired) in the building and battery.											
6) The attic scuttle opening must be 22" x 30".											
<ol> <li>This permit is approved based upon information provided by the applicant or design professional. Any deviation from the final approved plans requires separate review and approval prior to work.</li> </ol>											
8) Energy Code compliance shall be confirmed via a ResCheck or ComCheck, http://www.energycodes.gov/software.stm#tabs-2 certificate or alternate program or testing standard for thermal envelope and MEP systems. This documentation is required prior to associated work for these items.											
Dept: Fire Status: Approved w/Conditions R	eviewer:	Craig Messinger	Approval Da	ate: 03/03/2016							
Note:		-		Ok to Issue: 🗹							
Conditions:											
1) A separate Suppression System Permit is required for all new suppression systems, including standpipe systems, and sprinkler work effecting more than 20 heads. This review does not include approval of system design or installation.											
2) Shall comply with NFPA 13D, sprinkler systems.	2) Shall comply with NFPA 13D, sprinkler systems.
