Comments: Permit #2016-00210, issued 4/15/16, approved the addition of a commercial kitchen to the principal use of seafood processing and wholesaling. A determination letter dated 12/22/15 clarified that the on-site retail sale of prepared food from the commercial kitchen would be allowed only if the menu is based on products from the principal use of seafood processing and wholesaling. The licensee has submitted a menu that is entirely based on lobster and crab products, which are what the business currently processes and wholesales. OK with zoning as long as all limitations noted in the 12/22/15 letter are followed.
