RE: Initial Construction Inspection and Affidavit

Dear Building Inspector;

I Paul L. Mucci, ME Registration Number 10479, am a registered design professional, and hereby certify that I have directly supervised the preparation of the design plans, computations and specifications concerning the proposed antenna and ground mounted equipment upgrades on the above mentioned project.

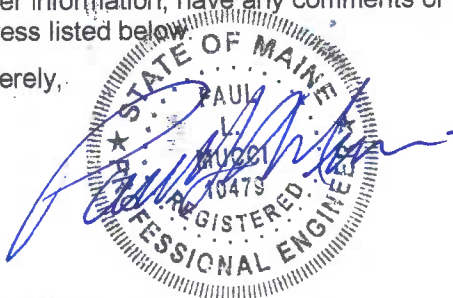

A site visit was conducted for a initial inspection of the wireless telecommunications installation on the above mentioned site. The visit took place on 4/11/2014 to inspect the site.

The site work consisted of installing internal radio equipment in an existing shelter, replacing antennas with pipe mounted antennas, fiber cables and related hardware on an existing tower. The plans, specifications meet the applicable provisions, to the best of my knowledge, in accordance to the Maine Uniform Building and Energy code:

- 2009 International Residential Code (IRC)
- 2009 International Building Code (IBC)
- 2009 International Existing Building Code (IEBC)
- 2009 International Energy Conservation Code (IECC)
- ANSI/TIA/EIA-222-G - "Structural Standards for Steel Antenna Towers and Antenna Supporting Structures".

Upon completion of the work, I shall submit to the building official a "Final Construction Control Document". If you need further information, have any comments or questions, please do not hesitate to me at pmucci@skybornetech.net or at the address listed below.

Sincerely,

Paul L. Mucci, P.E.
