To: Jeanie Bourke <jmb@portlandmaine.gov>, Christina Stacey <cstacey@portlandmaine.gov>

Hello Jeanie and Christina,

I'm embarrassed to say that while I was convinced that i had sent you both all the required information, I had actually only created an email that got saved as a draft... Clearly paperwork is not my strong suit.

Anyhow, I am now attaching everything that I believe I need. Here is a quick list:

1. 2 photos of my Maine Medical cards
2. Updated plans of the first and second floors, reflecting that the space is NOT a RESIDENCE.
3. A dimensioned plan of the deck, so as to retroactively permit it (though I did not build it!).
4. The Specs of a 424 CFM fan (2 installed), which both run a minimum of 10min/hr, so as to far exceed the requirements of ASHRAE 62.1

Thank you both for enduring my sluggish response time! Please let me know if there is anything else required.

Thanks again,

Z. Max Cover
