Great. Yes. the film production is still in a small corner in the right side for a couple more months.

I just received confirmation that alcohol content is below 16%.

Brad,

The previous permit stated the film production was classified as an F-1 occupancy. Has the film production business completely vacated the building or are they still occupying a portion of the building?

I did not have the document just forwarded which is very helpful. I will wait for the remainder of responses to plan review comments. Most have been answered with the document.

Thanks,

Laurie

Janet at SMRT asked if you had the attached document. It will answer most of your questions.

I will get the answer on the alcohol content.

Thank you

Brad Moll
