

05: Zoning Assessment

The subject property is located within the IL Zoning District and has been previously developed into the existing Pack Edge Facility. The proposed freezer addition will be constructed within an area of existing pavement such that the total impervious area on the site will remain the same. The addition will not impact the required property line setbacks and as the existing building is an allowed use, the addition is allowed as well. Please refer to the enclosed Zoning Analysis Tab, this section.
