

Built to Last

Sheds USA® stands out in both quality and service. Our sheds are built with your specifications in mind—all made with the finest quality material and backed by our Lifetime warranty. Unlike most shed companies, Sheds USA will deliver and assemble your shed for you, at no extra charge.* From gardening tools to art supplies to sporting equipment, we have a shed for your storage needs.

How to Order Your Shed

Sheds USA offers a flexible program for customizing a shed to both your individual budget and needs—and it's easy. Use "Standard Features & Materials" to help identify which best fits your needs.

- Choose a shed siding and size.
- Pick the roof style and shingle color.
- Customize the placement of your doors & windows.
- If you have specific requirements, see "Options & Upgrades" for details.
- Read our "Site Requirements" and "Delivery" information carefully.
- See a store associate to fill out the Sheds USA Order Form or simply call us toll free at **866.616.2687**

Standard Features & Materials

Roof (Peak, front extended peak or gambrel)

- 1/2" plywood
- 2" x 4" construction, 24" on center
- Self-sealing shingles—available in black, white/gray or brown
- 6' wide sheds available in peak roof only

Roof Heights	Peak	Ext. Peak	Gambrel
6' wide	8' 0"	n/a	n/a
8' wide	8' 3"	8' 6"	9' 0"
10' wide	8' 11"	9' 2"	9' 5"
12' wide	9' 6"	9' 9"	9' 10"

Walls

- 2" x 4" construction, 24" on center
- Smart Panel, pre-primed sheathing (vertical)
- Pine: 6" tongue & groove (horizontal)
- Cedar: 6" or 8" tongue & groove (horizontal)
- Wall height = 71" (Front Ext. Peak wall height = 75")
- Vinyl applied over 1/2" plywood

Floor (Floor sizes are approximate. If preparing your own foundation, please call Sheds USA at 1-866-616-2687 or visit our web site at www.shedsusa.com for exact outside floor dimensions and suggested layout diagram.)

- 6' & 8' wide sheds: 2" x 4" (16" on center) floor joist (2" x 6" (16" or 12" on center) pressure treated floor joist options available as an upgrade)
- 10' & 12' wide sheds: 2" x 6" (16" on center) floor joist (2" x 6" (16" or 12" on center) pressure treated floor joist options available as an upgrade)
- 5/8" Plywood decking (exterior grade) (Pressure treated 5/8" plywood available as an upgrade)
- Concrete block supports
- Pressure treated 4x4 center beam on all 12' wide sheds

Peak

Front Extended Peak

Gambrel

Heavy Duty 2x4 or 2x6 Floor Construction (optional PT available)

Window (optional screen)

Standard 40" Double Door

Delivery

- Sheds USA** will acknowledge the receipt of your order by phone, email or by mail. Please provide a daytime phone number and/or email address at time of purchase.
- Delivery schedule** will be established by Sheds USA. You will be contacted by phone 1 to 2 weeks in advance.
- Delivery time** will fluctuate based on seasonal volume, weather conditions and other uncontrollable events. Please note our crews deliver/install multiple sheds per day; therefore the status of one order may affect many others. We ask our customers to be understanding if an unforeseen event affects their delivery/installation date.
- Site requirements** must be fulfilled prior to scheduling (please refer to the "Site Requirements" section, located on the flip side, to ensure understanding).
- Cancellation** of any product already in production or manufactured will incur a 20% cancellation fee. Please contact us immediately if your order needs to be cancelled.

Visit www.ShedsUSA.com/millstores for more detailed information.

Sheds USA takes pride in its experienced staff of builders.

Most sheds are built within 3 hours of arrival—backed by our outstanding Lifetime warranty.

<i>Note: Storage loft not available for 6' wide sheds. Loft storage space will vary with roof style. Loft not recommended on Front Extended Peak roof style sheds due to space limitations.</i>	
Anchor kit [†] (Anchors and hurricane clips)	\$ 120.00

Site Requirements

- Clearance around the shed site must be at least 3' from any fences, trees, etc. Please remove tree branches, brush or other obstacles 3' around perimeter of shed and 12' above ground.
- Land grade must be less than a 6" slope from the highest to lowest point, with no protruding rocks or stumps in the area.
- Access to the site must be clear; sheds are delivered in prefab panels—stairs, narrow walkways, fences, gates, shrubs, carports, awnings, arbors, etc. may present difficulties and should be brought to Sheds USA's attention prior to delivery.
- Land quality is important. When choosing your site consider all factors, including: proper drainage, firmness of earth, etc.
- Permits are the responsibility of the homeowner. Please contact your local town office prior to purchasing/ordering your shed to determine town/county restrictions, if any.
- Shed site must be 150' or less from where large tractor trailer can park. Sheds sites located further than 150' from truck parking area will incur a minimum \$50.00 fee, payable to Sheds USA at time of scheduling. Please inform/contact our office if this applies to your site (toll free 866.616.2687).

If any of the above SITE REQUIREMENTS are not fulfilled, your shed may not be built and a fee of \$150.00 will be charged for our crews to return and construct your shed once conditions are met. If this occurs, delivery of your shed materials must be accepted and placed on your property in a location accessible to the final shed site to avoid a \$300 re-delivery fee. It is the customer's responsibility to cover the materials with a non-transparent, waterproof material to prevent any unnecessary weathering and/or discoloration. All fees are assessed by Sheds USA at time of notification.

*Please note: Some town/county building codes may require customers to purchase an Anchor kit and/or 2"x6" (12" or 16" o/c) Floor Joist option/upgrade in order to meet town/county specific requirements/codes. Although Sheds USA builds one of the highest quality shed products available, some towns have very stringent building codes and Sheds USA cannot guarantee that all of our sheds will meet these codes. Any additional cost necessary to meet code requirements will be the customer's responsibility.

[†]Cedar sheds may be built with Cedar or Cypress depending on availability. Cypress and Cedar have very similar appearance & characteristics, all bulleted items under the Cedar header apply to both wood types. Sheds USA reserves the right to substitute materials with the understanding that any substitutions will be of comparable quality and appearance to that being specified.

Visit www.ShedsUSA.com/millstores for more detailed information.

Standard Program, your choice of...

- Door & Window Layouts (Positioning)
- Shingle Color (Black, white/gray, brown)
- Options & Upgrades (Window Screens, Ramps, Door Enlargements, and more)
- Roof Style (Gambrel, Peak, Front Extended Peak)
- Several Siding Options (See above chart for samples)

Note: Options and upgrades are an additional cost to the standard pricing.
