May 12, 1932

Mrs. Leon E. Berry
116 Sherwood Street
Portland, Maine

Dear Madam:

Referring to your complaint concerning the encroachment of a pile of sand belonging to Mrs. Mary J. Haskins upon your land, this department and as far as I know the City of Portland have no authority to correct this condition which is no doubt a very aggravating one.

This is no doubt a civil matter between you and Mrs. Haskins, and if she will not correct the condition at your request, I believe the only course left open to you is to consult your attorney.

Very truly yours,

Inspector of Buildings.

XXXXXXXXXXXX

IN THE BOARD OF MUNICIPAL OFFICERS

September 27, 1930

To the Municipal Officers:

The Committee on Zoning and Building Ordinance Appeals to whom was referred the appeal of Mrs. Mary J. Haskins seeking a change in the decision of the Inspector of Buildings under the Building Code relating to her property at 36 Veranda Street, reports as follows:

A public hearing has been held upon this appeal at which some opposition appeared. Upon investigation, it was found that this appellant had a verbal understanding with the City to the effect that the dwelling house in question would be moved some ten and a half feet back from the new street line of Veranda Street as a consideration of the payment of additional damages. The additional amount of damages has been paid to this appellant, but the dwelling house has not yet been moved back from the street line.

Recommended that action upon this appeal be deferred until such time as this appellant has completed her part of the agreement with the City by moving the dwelling house back from the new street line of Veranda Street.

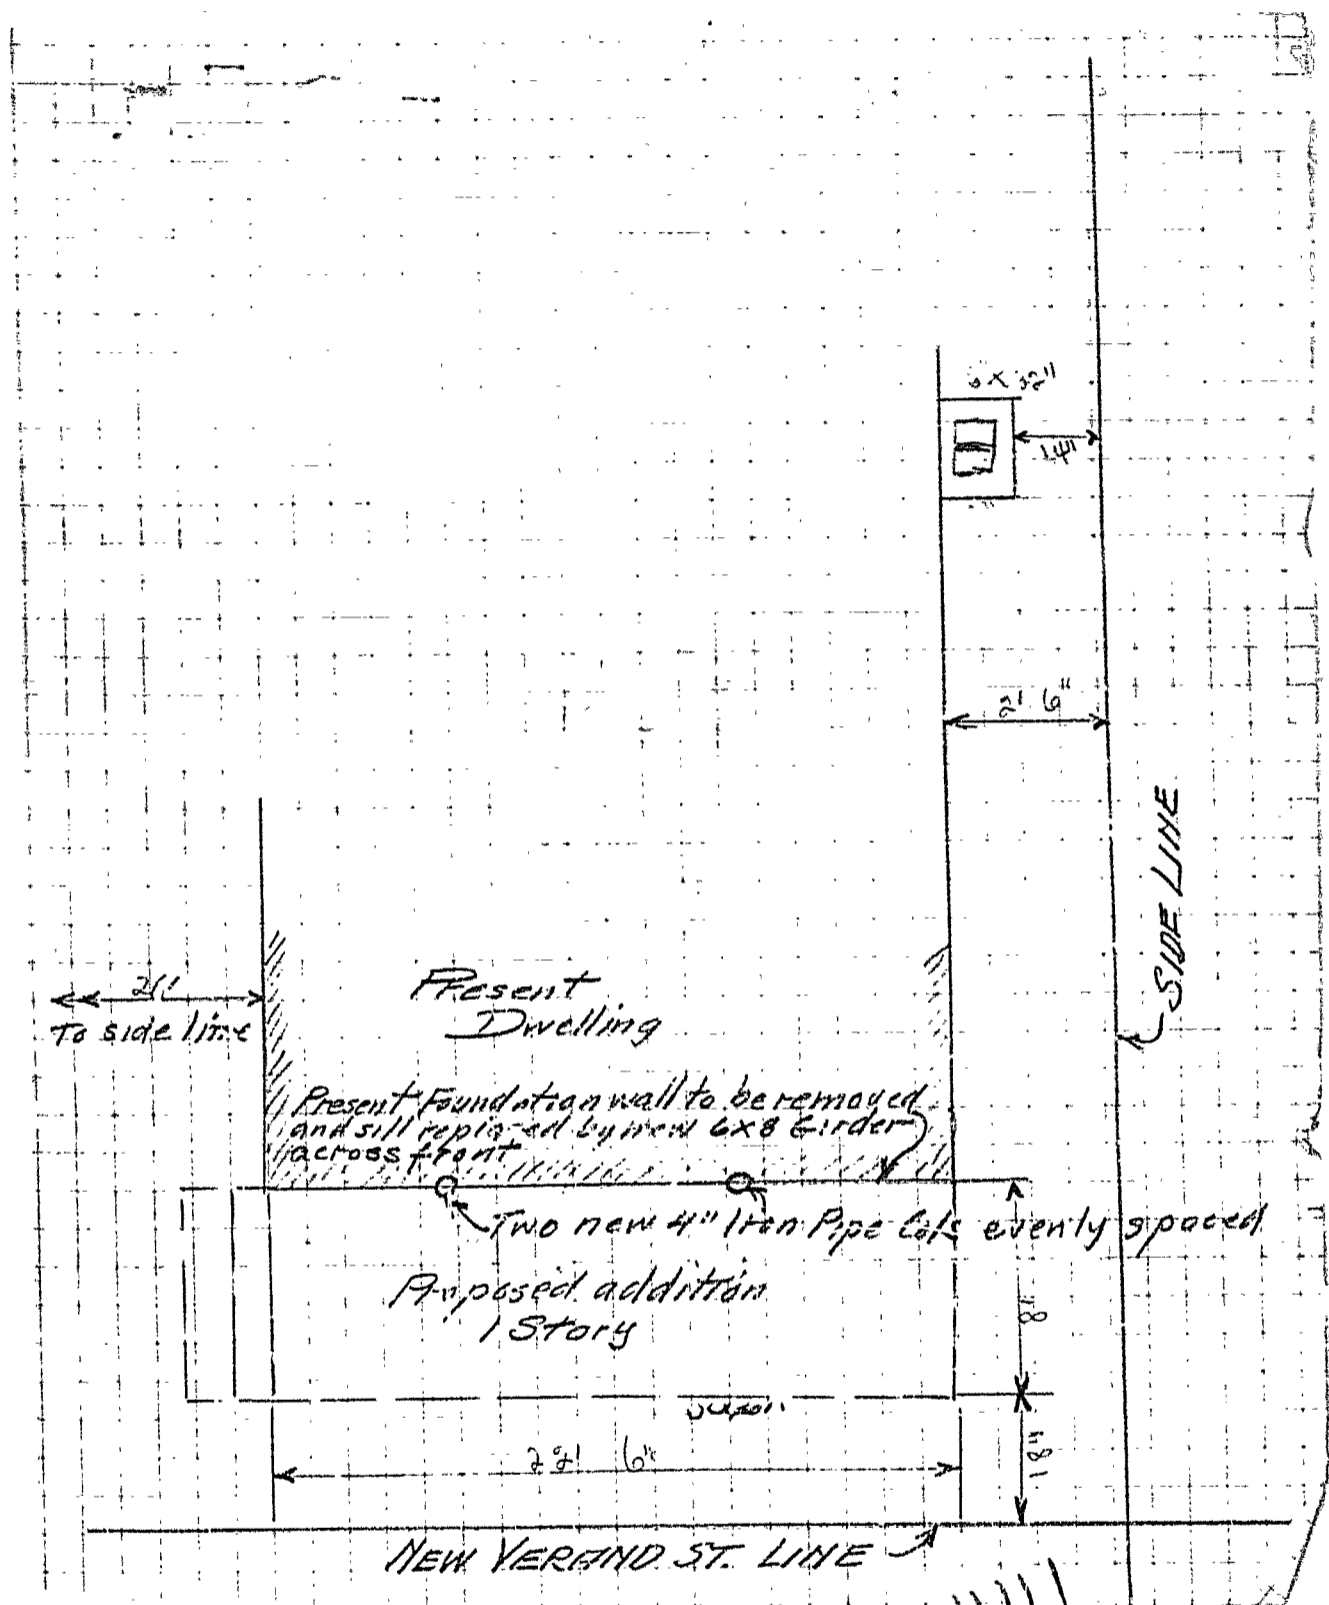

COMMITTEE ON ZONING AND BUILDING
ORDINANCE APPEALS.

STATEMENT ACCOMPANYING APPLICATION FOR BUILDING PERMIT

for relocation stable and dwelling
at 36. Veranda Street

Date 5/28/30

1. In whose name is the title of the property now recorded? *Mary J. Hopkins*
2. Are the boundaries of the property in the vicinity of the proposed work shown clearly on the ground, and how?
3. Is the outline of the proposed work now staked out upon the ground? *yes* If not, will you notify the Inspection Office when the work is staked out and before any of the work is commenced?
4. What is to be maximum projection or overhang of eaves or drip? *about 12"*
5. Do you assume full responsibility for the correctness of the location plan or statement of location filed with this application, and does it show the complete outline of the proposed work on the ground, including bay windows, porches and other projections? *yes*
6. Do you assume full responsibility for the correctness of all statements in the application concerning the sizes, design and use of the proposed building? *yes*
7. Do you understand that in case changes are proposed in the location of the work or in any of the details specified in the application that a revised plan and application must be submitted to this office before the changes are made? *yes*

Mary J. Hopkins

#5046A-I

October 8, 1930

Mrs. Mary J. Haskins
36 Veranda Street
Portland, Maine

Dear Madam:

Enclosed is the authorization to amend your building permit covering work upon your dwelling house at 36 Veranda Street to include construction of a one story sun parlor on the front of the building, and the construction of an outside chimney on the easterly side of your dwelling house. Your appeal from the decision of the Inspector of Buildings with regard to these two items was sustained on October 6, 1930.

With relation to the construction of the outside chimney, please see to it that the chimney clears all wood-work by at least one inch. If any connection is to be made to this chimney above the basement, the brick work of the chimney should be corbelled out so as to project through the outside wall of the dwelling house, thus obviating the need of carrying the metal smokepipe or any other kind of a smokepipe through the wooden wall of the dwelling house which is not permissible under the Building Code.

Very truly yours,

Inspector of Buildings.

WM/HC
Enc.

#2005-A

June 3, 1930

Mrs. Mary J. Haskins
36 Veranda Street
Portland, Maine

Dear Madam:

Referring to your application for a building permit to cover moving your dwelling house and a part of the present ell backwards from Veranda Street about 10'6"; demolishing a portion of the existing one story ell 22'6" x 15'; and detaching and moving the present garage and workshop to the opposite rear corner of the property, I find that I am unable to issue the permit as far as it concerns moving the combined garage and workshop to the opposite rear corner of the property as shown on your plan, since the building is much more than the twelve feet in height permitted by the Building Code for buildings located in the rear yard of dwelling houses, and since the moving of this building materially effects the yard dimensions of the property.

For these reasons, it is necessary to deny the permit as far as this portion of the work is concerned.

If you desire a permit contemplating all of the work shown in your application with the exception of the moving of the former stable, it may be issued without delay if you will revise the application for the permit accordingly.

You have appeal rights under the Ordinance with regard to moving the former stable, and if you desire to be advised more about them or if you desire to file an appeal from this decision, this office will give all service possible either in giving information or in actually helping you to file the appeal papers.

Very truly yours,

Inspector of Buildings.
