I can confirm by the records I have available via our mainframe computer I can confirm that at the service start date of each meter was:

441-1579583 – Service Date 08/08/1996 L108094799	57 Veranda St House Meter	Meter #
441-0054909 – Service Date 08/31/1989 L108094801	57 Veranda St Flr 3	Meter #
441-0054896 – Service Date 06/02/1993 L108097982	57 Veranda St Flr 1	Meter #
441-0054914 – Service Date 01/14/1992 L108097984	57 Veranda St Flr 2	Meter #

It is likely the power/meters were installed at this location before the dates shown however that information would be in our archives. That would be an extremely manual process to locate. The information provided should be sufficient to show that meters and been here for more than 6 years.
