

Explanation of Images and Maps attached to Steve and Renee's Diner Outdoor Seating Application

Map #1 Building and nearby roadways: This is a map of the building itself and where it lies in relation to Washington Ave., Highway 295, and Veranda Street.

This is intended to satisfy the request for a location of the building in relation to the street and its intersecting streets.

Map#2 Showing location of diner and building itself: This shows where specifically the diner is in relation to the building and has a hand drawn sketch of the dimensions and location of the proposed outdoor seating area.

this is intended to satisfy the request for a drawing of the lot and building dimensions

Map#3 Layout of proposed seating and dimensions: This is a hand drawn sketch of proposed seating for the outdoor dining area. it includes diagrams of chairs and tables and trash/waste can placement.

There are also circles around the perimeter of the seating area which is where we plan to use wooden barrels and rope or chain along with a 10'x 20' canopy as a means to mark the area designated for dining.

There is a rough sketch of the curb, bushes and wall on the outer perimeter of the building itself which is more easily seen in the next image

This is intended to satisfy the request for a diagram of table placement, chair placement and dimensions

Image of outdoor area intended for use: This image is to show where the sidewalk from the building will give access and to demonstrate where the intended location for outdoor dining is located in relation to windows, brush, and building itself.
