Dear City of Portland Zoning office,

I am writing to oppose the proposed building of a new single family home at 10 Island Street in Portland. I am a neighbor and am outraged by the monstrosity that would forever change the quaint, century-old neighborhood. tucked away along the shores of Casco Bay.

While many of us in the neighborhood have updated our properties, these positive changes have been, architecturally speaking, in keeping with our sweet "gem of Portland" neighborhood. This proposed 30-foot tall stark white stucco building (I can't bring myself to call this a 'home') would forever blemish our quaint streets. I realize this particular parcel of land is tiny and the owners would like to maximize their potential (and view), PLEASE insist that they build a home that would benefit, not tarnish, this special and desirable section of our beautiful city. There are many beautiful options for a small seaside house. The proposed plan is not one of them.

Thank you for your attention to this critical matter.
