The work cost is \$600. Do you need this on the application or will this suffice?

We still have not received cost of work on this permit application. Please provide the info ASAP so the permit can move forward. We look forward to seeing this info soon; thank you.

This is not an approval of your permit. Work cannot commence until the permit is issued.

Aran

You need to provide a cost of work (it is a requirement on the application you left blank.) How much will it cost for the complete job? We cannot move forward at all until we get this information.
