

July 21, 2015
Survey Project #15035

Building Inspector
389 Congress St.
Room 315
Portland, ME 04101

Foundation layout 17 Hodgins Street, Portland, Maine

To whom it may concern,

Four Points Associates was retained by Adam Cope to lay out the foundation as shown on a Site Plan dated May 05, 2015 per City review and prepared by Blais Civil Engineers. On July 8th we located several perimeter markers and survey staked the foundation corners, including two 15' offsets in the existing paved driveway. The foundation points staked out all checked within 0.01 feet of each other at the time of survey.

If we can be of any further assistance please do not hesitate to contact us.

Sincerely,
Four Points Associates, Inc.

Donald E. Dostie, P.L.S.
President
