Hi Ann:

The proposed plan to expand the garage to 24 feet wide, except for the rear corner meets does not further impact the shoreland zone setback as shown on the plan. Thus the Planning Board approval for the extension into the shoreland remains valid. I recommend two conditions of approval:

1. That prior to pouring a foundation, the footprint as shown on the plan be staked out for inspection by the code officer.
2. That a critical note be put on the lot that the garage cannot be expanded without further shoreland zone review.

Thank you.

Barbara

Are you OK with the footprint of the garage being expanded outside of the wetland as shown on the attached site plan?

Thanks.

Ann

Hi Anthony,

Revised plan attached. I added the dimensions to the plan. ☺
